Foreword

Dear Reader,

We are proud to introduce to you the 2007 edition of **Major Companies in Romania**, a reference publication aiming at offering the best source of information on the most representative companies in the country.

Major Companies in Romania is an exclusive multimedia system that features extended presentation profiles of the key players in the main sectors of the Romanian economy. Promoting the corporate image of the leading companies in Romania, the publication is structured in **26 chapters**, representing the most relevant industry sectors.

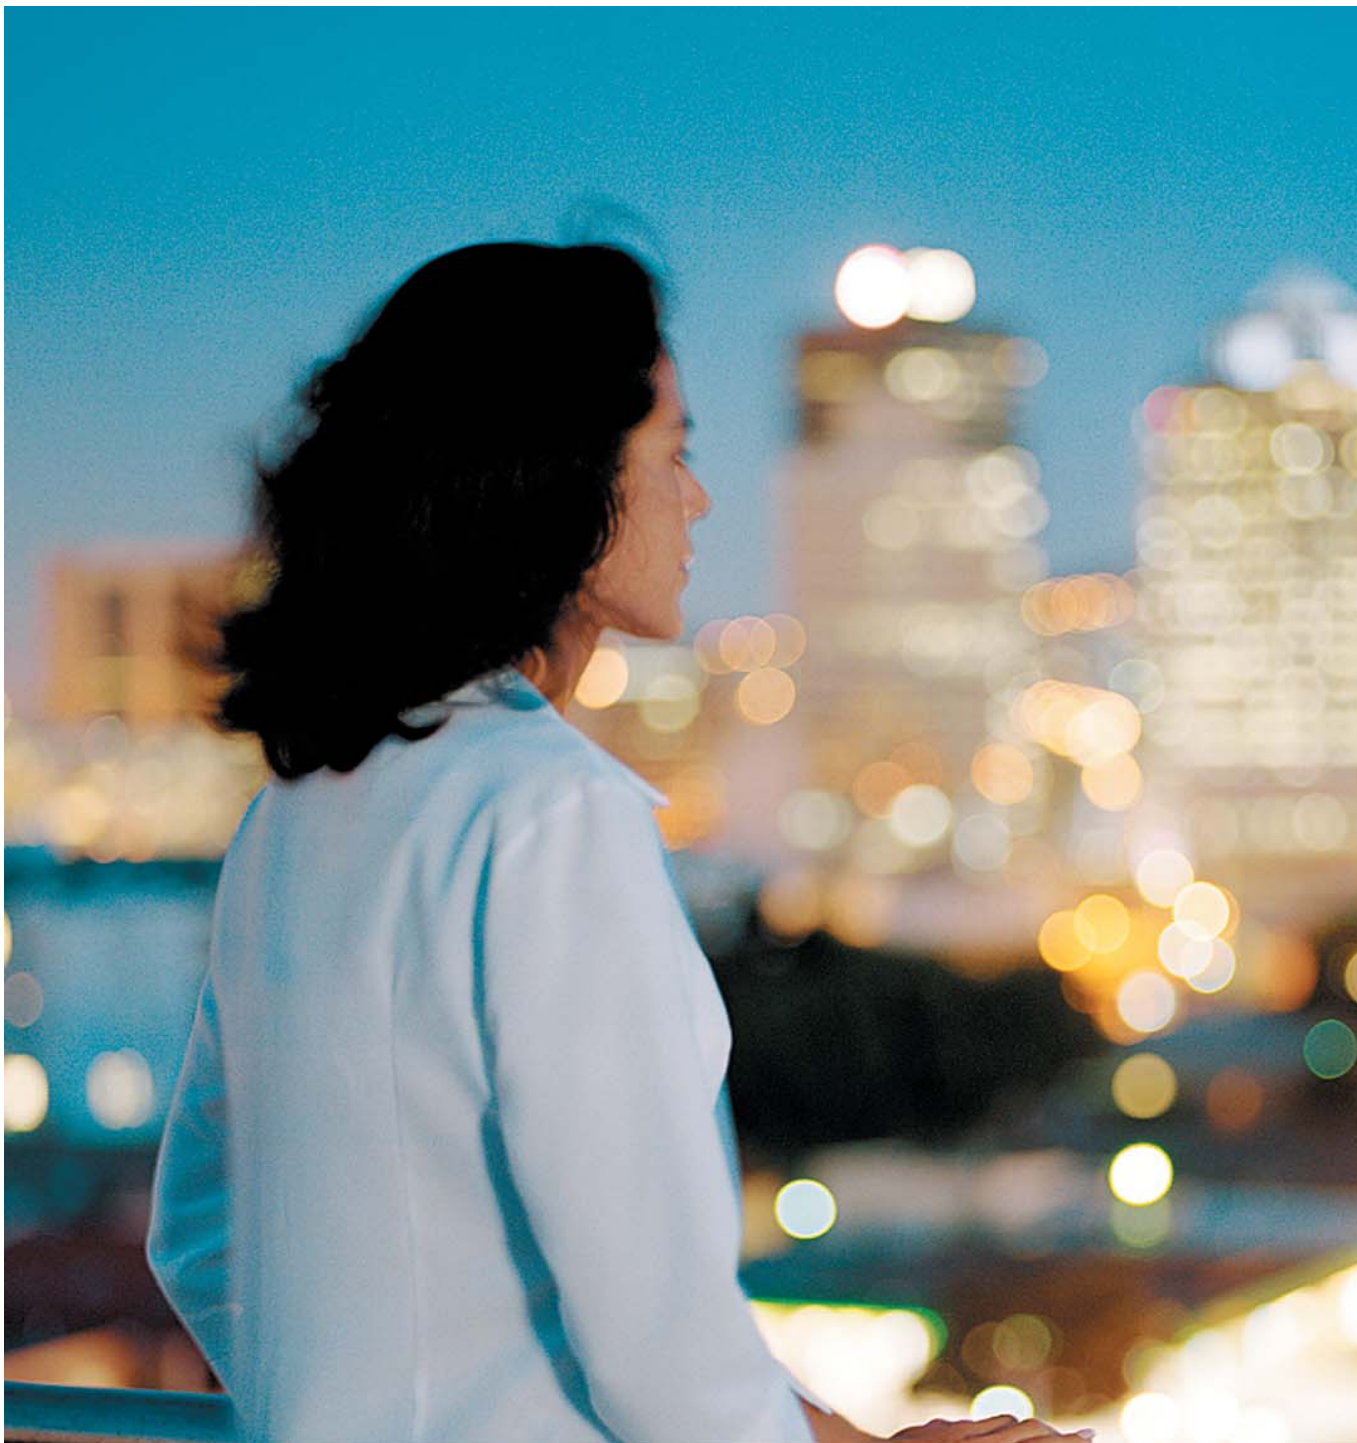

The third rebranded edition offers updated and comprehensive data about more than 2300 local representative companies. Moreover, Major Companies in Romania 2007 introduces other two **new** chapters: *Healthcare* and *HoReCa*, as a result of the latest developments in these two flourishing economic sectors.

The other 24 chapters representing the most important industry sectors are: *Banking & Finance, Energy, Chemicals, Pharmaceuticals, Glass & Ceramics, Metal, Machinery, Electric & Electronic Equipment, IT & C, Industrial Engineering, Building Industry, Real Estate, Wood, Paper & Furniture, Textile & Leather, Agriculture, FMCG, Traders, Retail, Transport & Cargo, Automotive Industry, Business Services, Media & Advertising, Business Travel, Luxury Goods.*

The updated content is also available on CD and online - including free download options - at www.doingbusiness.ro in the Major Companies in Romania section.

We hope that this new enriched edition of our publication will offer you a complete image of the Romanian business and economic environment.

Major Companies in Romania
Editorial Team

Technologies of the Future for the Cities of Tomorrow

The cities of tomorrow are today just a vision. But they will exist tomorrow thanks to present technologies – thanks to the infrastructures which transport us today on roads, on railways or through the air; thanks to the infrastructures which help us to be healthy, to communicate faster with our family and our friends, to build our houses, schools, shops, entertainment areas.

Siemens is building today these technologies because we have a vision regarding the cities of tomorrow: an urban area with innovative infrastructures and a clean environment.

Head of Local Research: RADU CRĂCIUN

Total assets (31 December 2006):

987,000,000,000 EUR
No. of employees: 1,000

Short profile:

Only eleven years since the establishment of ABN AMRO Bank's Romanian operations, it already has an impressive history of developing strong business relationships with multinational corporations, medium-sized international companies doing cross-border business with Romania, and local companies especially those with export and growth potential. It is the bank's aim to continue such relationships as it grows with the Romanian business market. Its thorough understanding of the dynamics of sectors, combined with a strong local presence, puts ABN AMRO Bank in an ideal position to advise clients and to offer them the best banking services. Starting with 2004, ABN AMRO Romania offers retail products and services to the Romanian clients.

BRD
GROUPE SOCIÉTÉ GÉNÉRALE

Short profile:

BRD-Groupe Société Générale is part of one of the most important banking groups in the euro zone, Société Générale Group. BRD is the second largest Romanian bank, having the second capitalization at the Bucharest Stock Exchange (EUR 4.5 billion at February 2007). BRD offers its customers comprehensive services in retail, corporate and investment banking. The Bank serves approximately 2,000,000 customers who have access to an extensive network of more than 600 agencies across the entire Romanian territory. The bank's main objective is to have a sustainable growth, based on a selective development of its products and services, on innovation, on mixing commercial dynamism, proximity, good management of risks and service quality.

**Short profile:**

In 1990, Banca Comercială Română (BCR) was established by taking over the commercial business of the National Bank of Romania (NBR). That moment marked the starting point of the new banking system creation in Romania. BCR has initially been focused on the corporate sector but in the recent years it has strongly developed its retail activities becoming the leader of this market sector as well. BCR, member of Erste Bank Group, is today the most important Romanian financial group, with diversified domestic and international activities via subsidiaries and agencies, being an outstanding player of the capital, leasing, insurance and asset management markets through the specialised companies of the BCR Group. BCR owns domestic subsidiaries to cover the main non-banking financial services, namely insurance, leasing, asset management and brokerage. This ensures a better satisfaction of customers' demands and positions BCR well as the banking environment consolidates. ** The ISO 9001:2001 certificate was granted to BCR by Moody International for the following activities of the Bank: designing and development of new retail banking products, loans, deposits transfer for retail customers; issuing and acquiring cards, collateral valuation services & feasibility studies, business plans; corporate credit.

Short profile: ProCredit Bank is a development-oriented full-service bank whose mission is to offer excellent customer service and a wide range of banking products. In its credit operations, ProCredit Bank focuses on lending to micro, small and medium-sized enterprises, as it is convinced that these businesses create the largest number of jobs and make

a vital contribution to the economies in which they operate. Unlike other banks, ProCredit Bank does not promote consumer loans. Instead, the bank focuses on responsible banking and building a savings culture amongst the customers. As a full-service bank, ProCredit Bank offers its clients - individuals, as well as legal entities - various deposit options at attractive conditions. In Romania, ProCredit Bank has been founded in 2002 and represents the result of a partnership between renowned financial international institutions, such as: EBRD, IFC - a member of the World Bank Group, Commerzbank, DEG, ProCredit Holding (German investment company), and IPC. This unique shareholder structure ensures a stable and prudent management and a dynamic evolution of ProCredit Bank on the Romanian market.

Short profile:

Piraeus Bank Romania was set up in 2000, by the taking over by Piraeus Bank Group of an already existing bank on the Romanian market: the Pater Credit Bank. The bank now owns 54 branches throughout the country. For more information go to www.piraeusbank.ro. Piraeus Bank Group is one of the most dynamic and active financial organisations from South-Eastern Europe, with 540 branches and shares worth EUR 30.9 billion. Piraeus Bank, the group's parent company, was set up in 1916 in Greece. Short profile:

BRD Sogelease IFN S.A. is the financial leasing subsidiary of BRD Groupe Société Générale, the second largest commercial bank in Romania, part of Société Générale Group. Since its incorporation in 2001, BRD Sogelease proved to be a solid partner, attending the financing interests and needs of a wide range of clients: large corporations, SME's, freelancers and individuals.

Furthermore, BRD Sogelease's business model consists in financing a large variety of leases, being in this way a true 'full-liner'. Consequence of this, we have a well-balanced portfolio: industrial and construction equipments, light and heavy commercial vehicles, cars, IT& office, medical equipments, real estate.

Short profile:

BCR ASIGURARI was established in 2001 as one of the members of Banca Comerciala Romana GROUP - the most important provider of integrated financial services in Romania and the first Romanian provider that has successfully applied the modern concept of 'one-stop shopping' through its 'financial supermarket'. BCR ASIGURARI is also a member of the National Association of Insurance and Reinsurance Companies in Romania (UNRAR), a member of the Romanian Leasing Association (ASLR) and a participant to the Credit Bureau. It has become also a member of the Romanian Car Insurance Bureau (BAAR). BCR ASIGURARI has been developing its knowledge, experience and financial power, ranking in the 'Top 5' Romanian insurance companies. For more than four years BCR Asigurari has been providing protection of property and economical stability to companies and families.

Following its inaugural edition in Bucharest, **Emerging Europe Investment Summit** is starting its road show tour to Europe. The second edition of this prestigious regional event is scheduled to take place to the **Vienna Marriott Hotel, in Austria on May 31 and June 1, 2007.**

Current political, social and economic changes worldwide have direct impact on the investment environment both globally and regionally. Regional integration, intensified competition in a new global economy are some of the key issues to be examined on the occasion of this year's edition of the Summit.

The discussions will focus on how the region can differentiate itself from its competitors and continue the rapid growth which has constantly attracted significant levels of investments during the past decade.

The working sessions of the Summit will underline the priorities for this year as well as the long term prospects and investment opportunities in the region.

The 2nd **Emerging Europe Investment Summit** will be attended by: government officials, senior representatives of financial institutions and international organisations, investors, representatives of investment and trade promotion agencies and local authorities, bankers, fund managers, industry leaders, key stakeholders, businessmen, entrepreneurs, business service providers etc.

They will all meet for a common goal: search for tangible opportunities for investment and growth in the emerging European countries.

The Summit will offer thus once again a platform where feasible business ideas will be analysed, investment opportunities examined, trade partnerships established, co-operation agreements made. It is the place where you can hear from strategic investors and leaders of the international financial community, present your project ideas, establish many useful contacts and encounter new potential business partners.

Media Fact Sheet - year end 2006

Profile

In 1990, Banca Comercială Română (BCR) was established by taking over the commercial business of the National Bank of Romania (NBR). That moment marked the starting point of the new banking system creation in Romania. BCR has initially been focused on the corporate sector but in the recent years it has strongly developed its retail activities becoming the leader of this market sector as well.

BCR, member of Erste Bank Group, is today the most important Romanian financial group, with diversified domestic and international activities via subsidiaries and agencies, being an outstanding player of the capital, leasing, insurance and asset management markets through the specialised companies of the BCR Group. BCR owns domestic subsidiaries to cover the main non-banking financial services, namely insurance, leasing, asset management and brokerage. This ensures a better satisfaction of customers' demands and positions BCR well as the banking environment consolidates.

BCR owns also banking subsidiaries in London - The Anglo - Romanian Bank Limited, having a EUR 100 million share capital and branches in Frankfurt and Bucharest - and in the Republic of Moldavia - BCR Chişinău Branch, as well as a representative office in Moscow.

BCR is the leading bank in Romania, managing assets of almost EUR 12 billion. The bank has 473 branches and agencies throughout the country, with outlets in most towns and cities with over 10,000 inhabitants. The bank provides its customers with Internet banking, mobile banking and e-commerce services, has 22 types of debit and credit cards and owns the largest domestic ATM network - over 1,300 ATMs and 9,800 points-of-sale terminals.

One of the corner stones supporting BCR excellence is represented by the highly trained and devoted staff, committed and involved in all bank's businesses and activities. Of the total staff 60% are women, well represented at all levels of top management (51%) and middle management (66%).

1998 BCR Chişinău was founded - a bank that operates in Republic of Moldavia

2001 BCR makes the first steps to a new organization - the first Romanian financial supermarket: BCR Securities was established in January, BCR Leasing in March and BCR Asigurări (a non-life insurance company) in December.

2002 BCR Asset Management was founded

2003 BCR is the first Romanian bank to be certified ISO 9001:2000 based on the quality audit performed by the Moody International.

2005 in October BCR University was launched - the first corporate university in Romania.

In December, BCR became the first Romanian bank to receive the "J. M. Juran" Quality Award, further to the successful implementation, through the Total Quality Management project, of sound business principles such as focusing on results, on customer satisfaction and leadership, by involving both employees and management, developing partnerships and behaving socially responsible, thus proving that the entire BCR community is directly and actively involved in achieving true excellence.

In December - BCR Asigurări de Viaţă was established.

2006 October - Erste Bank Group becomes the majority shareholder of BCR.

Strategic Objectives

1. Consolidating Bank's leading position
2. Increasing Bank shareholders' value, protecting all stakeholders' interest
3. Increasing customer satisfaction by providing best quality services
4. Functional restructuring, by adopting an improved organization structure of the Bank's Head-office and network
5. Consolidating the capital
6. Mitigating the risk profile and increasing the assets' quality
7. Consolidating the universal bank feature
8. Improving the staff training, motivation and compensation
9. Effective corporate governance

Recent Milestones

15.12.2006 BCR and the Association Sibiu - European Cultural Capital 2007 executed a partnership agreement stating that BCR, in his capacity of Official Partner, shall financially support the development of all events included in the Program Sibiu 2007, thus becoming the Official Bank of Sibiu - European Cultural Capital 2007.

In 2007, marking Romania's accession to the European Union, Sibiu shall become the 32nd European Cultural Capital, along with Luxemburg, being appointed as such by the Counsel of the EU Ministers of Culture in 2004. The Program Sibiu - European Cultural Capital 2007 is the most important culture project organized and unfold in Romania, in terms of size, attractiveness, duration and public communication impact.

This Program consists in almost 220 projects that include over 1000 culture events. The Program will draw over Sibiu, over Romania, the attention of a large public, at European level, the fact that will be accordingly reflected by the public opinion, inclusively by mass-media, having thus a strong impact on the country brand.

„I would also like to point out that we, at BCR, have a special approach that clearly makes a difference in terms of corporate responsibility acknowledgement. We don't speak only of sponsorships, but of a real partnership with effective involvement in the healthy and sustained development of the society. Only this way one can be sure that his own business will have a healthy development as well. Given the special significance of the year 2007 for Romania's accession to the EU, the support, granted by BCR to the Association Sibiu - European Cultural Capital 2007 and the Municipality of Sibiu for the proper organization and the successful development of the cultural program in 2007, represents an objective that BCR must assume in its capacity of leader and responsible institutional citizen“, said Dr. Nicolae Danila, CEO of BCR.

28.12.2006 BCR opened, this year, 101 new outlets, thus reaching a national network of 473 branches and agencies. The more than 100 new outlets, mainly destined for the population, cover areas with high potential for business development, both in the big cities and in the smaller towns from almost all the country's counties, as well as in Bucharest, the BCR network from the Capital reaching 82 branches and agencies. BCR has implemented, in the last few years, a new concept of banking unity which strengthens the direct relationship with the individual customers, thus stimulating as much as possible the fulfilment of their needs.

22.11.2006 The bond issuance launched by BCR was over-subscribed, the bank attracting RON 242.8 million (EUR 69.181 million) by an offer carried out in the period 8-21 November on the domestic capital market and intermediated by the Bucharest Stock Exchange.

During the subscription period, the investors have purchased 2,428,278 bonds, the over-subscription being of 21.41%. Out of the total subscribed bonds, 98.73% were subscribed by the big investors, while 1.27% by retail investors.

According to the provisions of the public offer prospectus, approved by the National Securities Commission through Decision no. 3292/26.10.2006, the Issuer decided to supplement the offered bonds to match the number of subscribed bonds.

24.10.2006 BCR is the first Romanian bank to implement the Security and Labour Health Management System.

The Security and Labour Health Management System sets requirements that allow an organization to keep its risks under control and continuously improve its performance.

Activities

Under the recent amendments of the Romanian capital market legislation, in December 2005 is adopted the Law 357/2005 regarding the commodity exchanges. This new law finally brings a justified acknowledgement of the instruments and exchange activity carried on by the Romanian Commodities Exchange (RCE) during its almost 15 years of existence.

In accordance with the new regulatory framework, RCE manages public interest markets and provides to its members and clients centralised conditions of negotiation for sale and procurement of products, services and works on the auctions market, for spot or forward operations with fungible goods or warrants on the spot market, as well as for sale or procurement of commercial receivables on the receivables market.

Main products & services

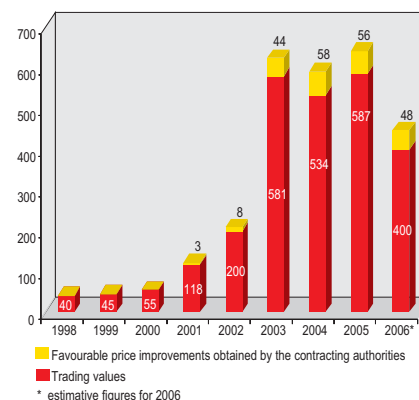

- sale and procurement procedures for commodities, services and works on the auction market;
- transactions on spot and forward markets, on the specialised floors for cereals, oil and oil products, coal, energy etc;
- sales and procurements of commercial receivables on the receivables market;
- training programs on Exchange topics, as well as courses and events on risk management, project management, derivatives, management or investments and consulting services through BRM Business Consulting - the educational division of RCE.

RCE territorial network

The exchange activity developed by RCE at national level bases on a wide territorial network, gathering at present 32 RCE terminals officially opened and operational or further to become operational in: Alba, Alexandria, Arad, Bacău, Baia Mare, Bistrița, Brașov, Buzău, Cluj Napoca, Constanța, Covasna, Craiova, Galați, Giurgiu, Gorj, Iași, Ilfov, Mehedinti, Oradea, Piatra Neamț, Pitești, Ploiești, Reșița, Slobozia, Suceava, Târgoviște, Târgu Mureș, Timișoara, Tulcea, Vaslui, Vâlcea and Vrancea.

Trading values

The last four years meant for RCE and its terminals an extremely dynamic period as the total trading values indicate: USD 581 million in 2003, USD 534 million in 2004, USD 587 million in 2005 and USD 400 million in 2006. These figures exclude the trading values registered in the international auctions for the purchase of crude oil and sale of gasoline, gas oil, urea and methanol organized by RCE for PETROM.

Auctions market

The importance granted by the Government to the award of the public procurement contracts through transparent procedures and within a competitive environment, according to the European

legislation further to be implemented in Romania, allowed RCE to obtain, since 2003, the following trading records on the auctions market, one of the most dynamic and transparent Romanian market: over USD 1.2 billions in 2003, respectively USD 1.4 billions in 2004. These record figures include trading values registered in the international auctions for the purchase of crude oil and sale of gasoline, gas oil, urea and methanol organized by RCE for PETROM. PETROM was in 2004 the main player on the oil products market and RCE has monthly organised for this contracting authority oil procurements and oil products (gasoline, diesel, urea, methanol) sale auctions. The total trading value exceeded USD 760 million, while the favourable price difference obtained by the PETROM as contracting authority exceeded USD 12.6 million.

In 2005, on the RCE floor in Bucharest were carried on 1010 procedures for sale and procurement valued at USD 512 million, while the total value of the favourable price differences amounted almost USD 45 million. In 2005, the total trading value registered by the RCE terminals exceeded USD 75 million, within over 1,230 sale or procurement procedures.

The estimative figures for 2006 indicate over 2,020 procedures performed, both on the RCE floor from Bucharest and the territorial floors of its terminals. The total price improvements obtained for the contracting authorities exceed USD 48 million (an average price improvement of 11.05% for each procedure), while the total trading value amounts almost USD 400 million.

Cash market

RCE organizes on the cash market specific trading floors for the main categories of fungible products: cereals, agro-alimentary products, oil and other energetic products, metals etc. This market provides the regulated framework where the bid and ask for fungible products meet. The result of this collation is the balance price to which transactions are concluded. This market operates according to the regulations of the Exchange within safety conditions both for the buyers and sellers.

Categories of fungible products traded on the RCE cash market:

- Cereals: wheat, barley, oat, sun flower, soy beans
- Oil products:
 - Fuels: gasoline, diesel oils
 - Heating fuels: black oil, CLU, CLG
- Energy: electric energy
- Coal: mineral coal, lignite
- Food stock: livestock, slaughtered animal carcasses
- Other fungible products: oil, industrial chemical composites, metals

Cereals on cash market

In the latest years, the trading of cereals and other agricultural products represents a major objective for RCE. Developing the necessary operational structure, RCE provides, at present, a feasible market on which the producers, warehouse owners, processors and traders may: obtain a real and stable price, save time and resources, and have the guarantee of financially safe transactions.

The total trading value of the wheat contracts traded in 2006 on the RCE cereals floor already exceeds USD 209,000, at a total traded quantity of 1,575 tones of wheat.

Development perspectives of this floor aim at bringing in for trading also the producers and traders of agricultural products such as: tobacco and tobacco products, flowers (as in flowers exchange from Amsterdam), cereals for beer (with the possibility of concluding forward contracts on the exchange floor), potatoes, medicinal and aromatic plants, as well as processed products.

Oil and energy on cash market

The Eastern-European markets represent a proper area for expansion of the oil and oil products international holdings. The increase of oil and oil products quotations generates a higher interest of the investors in the Black Sea region. Romania benefits of the most important refining capacity, exceeding the local demand for refined products. All these and RCE's former experience in organising sale - purchase procedures for oil and oil products, encourage RCE to develop an oil market. This as a first step towards launching a common regional platform for trading energy, oil and oil products.

Aiming to create a real and sound competition on the energy market, RCE brings in Romania the first Exchange platform for transactions on electric energy. The new platform allows both trading systems: auction procedure by negotiation, as well as electronic system. The main competitive advantages of the RCE's platform consist of efficiency, transparency and profitability.

Projects and strategies

Trading and settlement of commercial receivables

According to the new law on commodity exchange recently came into force, one of the markets managed by RCE is the one for commercial receivables, meaning those debts older than 1 year and registered by the companies in relation to the third parties. Launching such a market at RCE could significantly contribute to the financial unblocking of the Romanian economy, through the commercial receivables trading within an organised and regulated framework, especially providing the transparency and objectiveness absolutely necessary in the financial operations.

International Relations

Association of Futures Markets

As active member of the international exchange community, RCE becomes in 1998, one of the founding members of the Association of Futures Markets (AFM). Currently, among the full members of such association, beside the Romanian Commodities Exchange, there are also: Budapest Stock Exchange, Budapest Clearing and Settlement House-KELER, Dubai Gold & Commodities Exchanges, Eurex Frankfurt AG, Euronext, European Climate Exchange, HSBC Bank PLC, Mercado a Término de Buenos Aires, Multi Commodity Exchange of India Ltd, Patsystems, JSE Securities Exchange, Turkish Derivatives Exchange (TURKDEX), Ukrainian Interbank Currency Exchange, Warsaw Board of Trade, RTS Stock Exchange, Swiss Futures and Options Association (SFOA), and those having the statute of associated members, i.e. Hanover Commodity Exchange and Sofia Commodity Exchange. In 1999, AFM's annual meeting was held in Bucharest, under RCE's organization.

Starting with 2001, the Romanian Commodities Exchange also becomes, by means of AFM, an important participant in the annual meeting of worldwide commodities exchanges held in Bürgenstock, together with the most important institutions operating in the field of commodities exchanges. In May 2005, RCE plays host to the eight edition of the annual conference of AFM, successfully organized for the second time in Bucharest, and Mircea Filipoiu, President & RCE's CEO, becomes AFM's president.

Association of European Commodities Exchange

Also, on the occasion of its participation in the 45th meeting of the European Commodities Exchange, organized in October 2005 in Vienna, RCE becomes a full member of the Association of European Commodities Exchange.

Understanding the importance of its integration and recognition by the international exchange environment, RCE continues to be an active presence in the international major events in the exchange and financial field, particularly consolidating the cooperation with the other regional exchanges in Central and Eastern Europe. Therefore, RCE's participation in international conferences and exchange forums, as well as in specialized exhibitions in the financial field has always enjoyed a very high consideration.

ING Bank Romania is part of **ING Group**, a global financial services institution of Dutch origin with 150 years of experience, providing a wide array of banking, insurance and asset management services in over 50 countries. Our 120,000 employees work daily to satisfy a broad customer base: individuals, families, small businesses, large corporations, institutions and governments. Based on market capitalisation, ING is one of the top 20 largest financial institutions worldwide and ranks in top 10 in Europe.

A fully fledged commercial bank

ING Bank Romania is the first foreign bank to set up local office after 1989 and presently offers a complete range of products and services, for a complete range of clients: corporate, institutional and individuals clients. ING is also the first bank in Romania operating at European standards, with an AA rating (Standard & Poor's).

ING Wholesale Banking, the Corporate Banking business line, focuses on providing high-value-added products and services to its corporate clients. We proud ourselves that today more than 70% of the multinational companies and 60% of the local blue chips are banking with ING in Romania. Our leading positions in financial markets as well as in investment banking & structured lending make us one of the best competitors on the corporate banking market. ING Wholesale Banking's products range from General Lending, Payments & Cash Management and Structured Finance products to Securities Services, Leasing (via ING Lease), Factoring (via Commercial Finance) and Corporate Investments.

ING Retail Banking provides modern banking services to individuals through a network of ING Offices which offer clients easy access to their funds. Because we believe that a bank should be approachable and accessible at all times, we introduced to Romania a completely new way of banking, one that simplifies life, brings liberty, information and dialogue. The innovative platform of the retail operations is SelfBank, allowing people to make their own banking operations such as paying bills, making bank transfers or deposits, withdraw cash, the service being available 7 days of 7, from 7.00 till 23.00 hours.

ING Bank Romania network is continuously expanding. Currently, the network covers 27 cities through 24 wholesale branches and over 110 ING Offices.

A bank easy to deal with

We focus on the many (often small) things that can make clients lives easier – or harder.

In everything we do, we strive to be our clients 'preferred partner' for their financial services needs. We are proactive in anticipating our clients' future needs and understanding their concerns. Our success is based on continuous improvement in our ability to perfectly facilitate and execute our clients' needs.

Through its highly-qualified and experienced Relationship Managers, ING provide its clients with a dedicated point of contact who ensures they benefit from seamless access to our entire integrated product offering, not only across the Wholesale Banking Division, but throughout the all other divisions of ING Group.

A Trusted Advisor

We look out for our client's best interest.

ING's current wholesale banking offer includes flexible lending solutions tailored to the needs of clients and a professional and dedicated relationship management, state-of-the-art Cash Management and a complete range of corporate finance and custody services.

ING has been also a leading player on the Romanian capital markets for several years now. This not only entails being in the no. 1 in terms of volumes of brokerage and own-account dealing. It also means that ING has constantly pursued its vocation of being the forward looking pioneering actor by excellence in Romania.

Leading with Knowledge

We make our client's lives easier by understanding their business and providing relevant solutions.

Throughout the last decade, ING proved itself as the avant-garde of banking institutions in Romania, building up a reputation for quality and innovation. ING was the first supplier of electronic banking services, the first financial institution to arrange a cross-border syndicated loan and to introduce private banking. Guaranteeing high performance, ING has been always offering innovative, customer-driven solutions, created as a response to the client needs and local market requirements.

Moreover, ING has a sector approach which enables it to provide clients with access to significant in-house sector expertise, and to combine this with the extensive product knowledge available across our organisation. The result: greater added value for its clients. The sectors of expertise are: Utilities, Transport & Logistics and Telecom.

ING Romania owns an extremely solid position on the market through its divisions. ING is a top rate player in wholesale banking - the best brokerage division, the biggest custodian and top player in financial markets and is the leader of Life Insurance sector. The ING Group presence in Romania completes with other three divisions: ING Lease, ING Commercial Finance and ING Real Estate Investment Management.

ING Lease division started its commercial activities on the Romanian market in January 2006. ING Lease Romania IFN SA, a wholly owned subsidiary of ING Lease Holding NV, offers business to business asset based finance lease products to designated client segments.

ING Lease offers finance lease solutions to finance: a wide array of equipment; real estate; cars & light commercial vehicles. For cars, as financing option, ING Lease offers operational lease (together with a partner specialized in fleet management). Distribution is done via ING Wholesale Banking network; via vendor arrangements with leading manufacturers or suppliers and directly to market by using the sales force of ING Lease.

ING Commercial Finance division is specialized in factoring services. ING Commercial Finance comes on the Romanian market with a complete factoring service offering, focused especially on Small and Medium-Sized Enterprises. The main advantages of the ING Commercial Finance offer are the quality of services, flexibility in risk evaluation and the speed of procedures.

In addition to invoice financing, ING Commercial Finance offers a wide range of services, including: management of receivable portfolio, debt collection and protection against risk of non-payment. An innovative element for the local market is the on-line service, which allows clients to see in real time their invoices portfolio or details referring to debtors and receivables.

ING Real Estate Investment Management (REIM) is the newest ING division launched in Romania in November 2006. ING REIM is the world's largest real estate investment manager, with assets under management reaching EUR 54.8 billion. In total, ING REIM manages 62 funds and has 578 institutional investors among its clients.

ING Real Estate has been monitoring the Romanian property market from a distance since 2001. In 2006, ING REIM decided to target Romania for its new ING Property Fund Central and Eastern Europe. The objective of ING REIM in Romania is to obtain high quality property with a targeted investment volume in the order of EUR 200 million until 2008. The focus will lie on acquiring office buildings in Bucharest and retail and logistical properties nationwide.

PORSCHE

FINANCE GROUP ROMANIA

Financing Porsche Brands in Romania

Porsche Finance Group has started its activity in Romania, in 1999, by establishing Porsche Leasing Romania, as a subsidiary of Porsche Bank AG Salzburg.

Porsche Leasing Romania was one of the first leasing companies on the Romanian market, with a dynamic growth, standing now in leading position on the car financing market.

Porsche Broker de Asigurare, established in 2003, enriched the financial services offered through Leasing with insurance products (CASCO, RCA and Green Card).

As a next step in the Groups development was the launch of the first specialized auto Bank in Romania, which became operational in November 2004 and offers credit products for financing cars as well as specific bank products.

The newest member of our Finance Group, Porsche Mobility SRL, was established in 2006 and completes the range of financial services with fleet management, operating leasing and rent a car.

Our success is based on the long term outstanding collaboration with the dealers of the Volkswagen Group (Audi, Seat, Skoda, Volkswagen, Porsche, Lamborghini, Bentley) and an optimum range of flexible and competitive products.

“One stop shop” is the concept that we promote. The client can find all the services around the car at one single point, the point of sales.

Our goal is to offer best quality services to our clients and to maintain the leading position on the car financing market.

PORSCHE

BANK

Porsche Bank Romania is the first auto bank specialized in car financing services having as major shareholder Porsche Bank AG, with the headquarter in Salzburg Austria.

The core business focuses on financial solutions for customers buying vehicles imported by Porsche Romania.

The Bank provides specialized financial services completing the range of services already available from the other members of the Financial Group Romania, leasing and insurance.

The main product is the car loan. The product is designed both for private persons and companies. Although Porsche Bank Romania is a specialized bank - the first auto Bank in Romania, we offer also a wide range of typical banking products: Deposits and current accounts, current account services, both for private persons and companies, working capital and investment loans for our dealers. Besides that, we developed also Internet Banking and Cash Collection services to satisfy the clients needs.

PORSCHE

LEASING

Porsche Leasing Romania IFN SA is a subsidiary of Porsche Bank AG and it operates as the financial partner of the importer Porsche Romania.

Our aim is to support the sales activity of the general importer of the VW Group cars: Audi, Skoda, Seat, Volkswagen, Porsche, Lamborghini and Bentley and to maintain our leading position on the car financing market.

At the same time, we operate as an independent entity and our goal is to grow constantly, maintaining a healthy risk management policy.

Our products are flexible and competitive, adapted to the market conditions. Financial leasing is offered for private persons as well as for companies. In order to satisfy all clients needs, we offer through our company also logistic services for the financed cars.

Efficient and qualified employees, strong client oriented approach, flexible and transparent conditions are our strengths.

PORSCHE

BROKER DE ASIGURARE

Porsche Broker de Asigurare, completes the range of our services by offering insurance policies (RCA, CASCO and Green Card) for cars financed in leasing, credit or cash. The car insurance offered by Porsche Broker de Asigurare is the ideal solution for the client because he can choose one of the insurance companies from our portfolio, as well as the insurance conditions.

The company is placed between the top insurance brokers on the Romanian market, having a young and dynamic, client oriented team.

PORSCHE

MOBILITY

Porsche Mobility SRL, the newest member of the Porsche Finance Group, developed its activity in fleet management, operating leasing and rent a car. Porsche Mobility offers an efficient financial and logistic solution for small, middle and big companies, which own car fleets and which want to save time and money.

All four entities of the Porsche Finance Group - Porsche Leasing, Porsche Bank, Porsche Broker de Asigurare and Porsche Mobility are a strong and reliable partner for our clients, offering the most efficient solution for the acquisition of a car.

SIEMENS

Short profile:

We have started our operations in Romania 100 years ago being involved mainly in the following business areas: Information & Communication, Automation and Control, Power, Transportation, Medical and Lighting. We provide our customers with our comprehensive experience and solutions so they can achieve their objectives fast and effectively.

As a GLOBAL NETWORK OF INNOVATION, our goal is to achieve a sustained increase in company value. As innovation cycles continue to accelerate, we can only remain successful if we accurately identify promising future trends well in advance and then shape them by achieving technology leadership.

Ownership: Private-owned: 100%; Foreign: 100%

Short profile:

SC Electrica SA is a state-owned company, subordinated to The Authority for State Assets Recovery. Its core activity is electricity distribution and supply and provision of the infrastructure of communications, which should allow high-quality management on the liberalized market, taking into account the competition in the field. The company's mission is to operate and develop electric distribution networks to provide all its customers - current and potential - with the basis of comfort and economic progress, ensuring services at national level as well as individual fulfillment of requirements.

About Ava

AVA Headquarters are located in Rome, Italy with operations set up in Algeria, Tunisia, Libya, Romania, Albania & El Salvador. Additional offices are also set up in Spain, France, Germany and the U.A.E. AVA's full line of services also include waste recovery, water recycling and drilling fluids disposal.

Newpark Drilling Fluids LLC

AVA joined Newpark Drilling Fluids LLC in 2002 forming a synergy that has resulted in a strong, results driven team. Gaining the strength of Newpark's R&D, along with Ava's long history of exceptional service throughout the Mediterranean and North Africa has created a winning combination.

Vision

We aim at promoting AVA development as a multinational and multicultural company where our primary concern is the care of our people, our customers, and continued technology improvement in accordance with our sound corporate values.

AVA's mission is to provide our customers with quality products and services through:

- Continued improvement, development and sharing of knowledge.
- Effective and innovative Programs and Technologies designed for the customer.
- Motivated and committed employees.

AVA operates according to the highest standards regarding:

- Healthcare
- Safety compliance
- Quality assurance
- Environmental protection

AVA seeks to consolidate existing markets and develop new opportunities through targeted investments in order to sustain company growth.

Technology

AVA Drilling Fluids & Services provides a wide range of experience based on years of activity in various regions of the Mediterranean, North Africa and Europe. With our qualified personnel both in the lab, and on the rig-site, our goal is to provide continuous improvement to our service and product technology.

Our research and development laboratory in Rome is furnished with the most up-to-date equipment and is responsible for the latest drilling, drill-in and completion fluid systems being used in the field by AVA personnel.

Our partnership with Newpark Drilling Fluids, LLC and OGS Laboratory, Inc. allow AVA access to a wide range of testing capabilities and the latest technological developments.

Products and Fluid Systems

AVA has introduced an effective group of proprietary products and fluid systems incorporating novel new components designed to advance the science of drilling demanding wells under harsh conditions.

Our approach is two-fold: Achieving new synergies of performance by combining existing technologies into a single package; and developing totally new approaches in mud chemistry. As a result, AVA has rolled out a growing number of new cost-effective products maximizing our customers' drilling performance.

Our technological experts match performance criteria with cost-effective tools, refining and perfecting application techniques to provide solutions to a wide range of geological challenges.

Central to this development is AVA's respect for the environment. That respect has led to breakthroughs such as Avapolyoil/DeepDrill™ water based drilling fluids (as an alternative to invert emulsion systems). Likewise, AVA has introduced a variety of proprietary products to provide solutions to age-old drilling challenges such as shale stabilization, inhibition and penetration rates.

Equipment

Ava has a full line of available equipment for rental allowing for fewer problems with multiple service and supply companies. Some of our available equipment includes:

- Flottweg Centrifuges model Z34
- Flottweg Centrifuges model Z42
- Derrick Hi-G Dryer with Desander & Desilter
- Bulk Plants
- Bulk Storage Tanks
- Liquid Mud Plants
- Portable Liquid Mud Plants
- Fully Equipped Rig Site Cabin Units
- Derrick Flocculation Units

Quality, Safety & Environment

AVA places Quality, Health and Safety of personnel and protection of the Environment first in everything it does; it is committed to satisfying customers' needs by providing them products of which it guarantees quality by specific controls, and a continuous qualified service that always meets customers' expectations at an affordable cost.

For that reason, AVA has established rules to guarantee health and safety of personnel, prohibiting the use of drugs and alcohol for all employees. This rule is also valid for sub-contractors that operate with AVA, or on behalf of AVA; respect of this rule is therefore required of all sub-contractors.

AVA is also committed to:

- Manage its operations in compliance with all applicable laws and regulations, including those related to health, safety and the environment.
- Pursue continuous and progressive improvement by bringing innovative technologies and cost effective solutions that ensure minimum impact on safety and the environment.
- Evaluate the environmental impact of its products by implementing management procedures that will anticipate, reduce and eliminate risks for people and the environment.
- Take steps to organize, educate, and train personnel in order to enhance the competence of every AVA employee - in both normal conditions and emergencies - and to ensure growth of knowledge and expertise.
- Pursue continuous and progressive improvement of our Quality Management system in order to evaluate its efficiency and to guarantee customers' and employees' satisfaction by qualified personnel and maximum availability of AVA management.

Ava Eastern Europe:

Ava is well-represented in Romania through Ava Eastern Europe which is working in cooperation with Petrom /OMV. In addition to the traditional services as chemical supplier, mud engineering, solid removal equipment (Centrifuge, Shale Shaker and Floc Unit), Ava Eastern Europe has recently introduced a system especially designed to reduce and manage the residual waste of the drilling fluid activity. Ava Eastern Europe utilized this technology throughout the Romanian territory with excellent results; in 2006, thousands of cubic meters of mud were treated, water recovered and dry cuttings (less than 30% of humidity) were disposed of in regular and authorized garbage areas.

Dry cuttings are constantly being checked through analysis in accordance with HG 856/2002 and MAPPM 756/19 (mg/kg s.u.).

Recycle, reduction of waste and environmental impact study are some of the primary objectives of Ava group.

Electricity Distribution and Supply Joint Stock Company

Electrica for you all

Electrica SA is the largest electricity distribution and supply company in Romania that also provides specialized energy services. Electrica SA is a modern company that offers a wide range of services:

Electrica is actively involved in the electricity market as a balancing responsible entity for itself and other 23 market players together with which it trades almost half of the electricity available on the market in average per hour interval terms.

Are you aware of Electrica power?

We are a national market leader in electricity distribution and supply services.

We are the best you can find.

We are a company with 120 years of experience.

For 120 years, generations of Electrica specialists have been researching and innovating to serve generations of clients.

We are the company with the biggest turnover among Romania's public capital companies.

Romania's business community recommend us: at the "Romania Top 100" Gala we were awarded for excellent financial results. In other words, we are doing our best on a more and more competitive market.

We are success oriented.

We continued our investment programs while growing our company's profit first of all owing to our operations in the electricity markets.

Electrica is tuned to society needs

Electrica SA is constantly pursuing ways to modernize, diversify and increase its business efficiency. Our prime concern is to continually improve on our customer care and increase our customers' satisfaction.

Customer care and satisfaction

Our clients are the key to our success, because Electrica's target is to offer you the best services. Our company's evolution is actually a long array of challenges that have been successfully met because we have always wanted to offer you ever higher

performance services. Here are Electrica's challenges:

- To use top technologies for more rapid and efficient electricity distribution and supply.
- To offer energy maintenance services of a high operative and qualitative level.
- To bring to a good conclusion the privatization process.
- To redefine our corporate entity.
- To get certified our company's integrated quality, environment, health and safety management system.
- To play an active role in the electricity markets.
- To develop new business, participate as investors in the implementation of big projects in the field of fossil, renewable and nuclear energy generation and energy services.

As proof for the quality of its services, Electrica SA has got certification of its Integrated Quality, Environment, Occupational Health and Safety Management System by EN ISO 9001:2000, EN ISO 14001: 2004 standards and OHSAS 18001:2004.

Corporate structure of Electrica

- five subsidiary companies with legal personality:
 - four electricity distribution and supply subsidiaries: Electrica Transilvania Nord, Electrica Transilvania Sud, Electrica Muntenia Nord and Electrica Muntenia Sud.
 - one energy services subsidiary : Electrica Serv;
- 49% interests in Electrica Soluziona;
- 37% shareholding of: ENEL Electrica Banat, ENEL Electrica Dobrogea, E.ON Moldova, CEZ Electrica Oltenia.

In a perspective, our privatization efforts are focused on economic-financial targets regarding the competitiveness of our company. More important, the completion of the privatization process will allow us to offer you the guarantee that our services are of the best quality.

How does Electrica think?

Our company has gradually developed specific approaches to our projects and relationships with our clients and business partners. By that, we mean a set of specific values and conduct thanks to which Electrica is now a successful company.

- Progress based on competence;
- Responsibility and care for our clients;
- Support to community;
- Preservation of Romania's long engineering tradition.

We are determined to always meet the requirements of our over 5 million customers.

- Ever more diversified services;
- Best access to the electricity supply service;
- Extended infrastructure;
- Electricity supply at western quality standards.

HIDROELECTRICA S.A.

Our Power is Water

COMPANY PROFILE

HIDROELECTRICA S.A. is a state-owned trade company which has as main objective of activity power generation by using hydropower resources from ROMANIA.

Established in 2000, HIDROELECTRICA managed to impose itself on the Romanian Energy Market due to its experience, reliability and flexibility, and now is the leading yet progressive power generator and supplier in Romania and the main supplier of system ancillary services.

The excellent results and our commitment to quality confirm us as a benchmark of the industry.

HIDROELECTRICA has 326 power plants and power pumping stations summing up an installed capacity of 6335,32 MW (out of which 91,5 MW in power pumping stations and 244,5 MW in power plants with an installed capacity less than 10 MW) with a power generation in an average hydrological year of 19772 GWh.

In order to keep up the rate of development of a growing market and thus attaining our targets, HIDROELECTRICA obtained in 2004 the company rating improved in 2005 as follows: Ba1 - Stable provided by Moody's and BB - Positive provided by Standard and Poor's.

Our mission: to be leader in power generation and ancillary services in an environmental and socially liable manner.

Our vision: work based on highest professional standard, client demand orientation as well as consolidated partnerships, alignment of entire activity to quality assurance requirements, respectfulness towards employees who are our most valuable asset, responsible management of the utmost precious resource: water.

Our values: morals and ethics in business, high professional standards, commitment to quality, team play, beautiful industrial landscape.

We firmly believe that both our vision and values led us to achieve our goals and we aim that the dynamics of our activities and the continuous development will make possible the fulfillment of our strategic objectives.

Our strategy comprises long term objectives which reflect the needs of our national economy regarding resources, safety and energy efficiency ensuring, the use of renewable resources and environment protection.

OUR ACTIVITIES

Operation - from the power generation point of view our most important subsidiaries are: Iron Gates with two hydropower plants located on the Danube river, having 1417 MW installed capacity and generating about 50% of the electricity produced by HIDROELECTRICA; Râmnicu Vâlcea subsidiary on Olt and Lotru rivers with 1174 MW installed capacity that generate approximately 15% of the electricity produced by our company. Bistrița subsidiary produces other 8% of our electricity with 678 MW installed capacity on Bistrița, Siret and Prut rivers.

Investments

The strategy general objectives:

- Increase of the country hydropower potential usage by building new production capacities, from 49% in 2005 to 62% at year 2025 level
- Bringing the operational production units in line with efficiency figures of the world, increased operation safety
- Private capital attraction into the development and refurbishment projects
- Privatization by selling of MHPP (production capacities in micro-hydropower plants)

Hidroelectrica's Development Strategy within 2005-2025 is oriented towards two large schedules:

- I. New power capacities;
- II. Rehabilitations, upgradings, overhauls.

I. New power capacities: It consists of 4 sub-schedules associated to the completion of some investment objectives under various execution stages as well as some new power capacities. *Sub-schedule 1:* "Undergoing hydropower investment objectives in different execution stages". *Sub-schedule 2:* "New national interest hydropower investment objectives". *Sub-schedule 3:* "New hydropower investment objectives for further capitalizing the feasible financial hydraulic potential". *Sub-schedule 4:* "Investment objectives for capitalizing other renewable energy resources".

These investment objectives amount to an installed power of 2634 MW and bring in SEN an energy contribution of 6489 GWh/year. An investment of EUR 4912 mln is necessary for completing this program.

II. Rehabilitations, upgradings, overhauls: It consists of 4 sub-schedules through which some existent generation capacities are rehabilitated and which bring an energy contribution of 349 GWh/year.

An investment of EUR 1800 mln is necessary for completing this program. *Sub-schedule 5:* "Refurbishment undergoing investments". *Sub-schedule 6:* "New refurbishment investments". *Sub-schedule 7:* "Upgrading-based rehabilitation works". *Sub-schedule 8:* "Hydropower objectives security overhauls".

The schedules I and II will be mostly financed from Hidroelectrica's sources and loans reimbursed from own sources.

In the view to achieving the objectives within these schedules it is necessary an investment fund of EUR 6712 mln, which brings a power supplement of 2634 MW therefore it supplies an afferent energy of 6838 GWh/year in the average hydrological year.

Refurbishments are the result of the following considerations: an advanced age of some hydrounits (over 28% are beyond 30 years of life); utilization of some low reliability equipment; low automation by initial design.

HIDROELECTRICA S.A.

3, Constantin Nacu St., Sector 2, Bucharest, RO-020995
Phone: + 40 21 303.25.29; Fax: +40 21 303.25.64
email: office@hidroelectrica.ro; www.hidroelectrica.ro

Hidroelectrica's strategy involves the refurbishment of main hydropower plants: HPP Iron Gates II 10 units of 27 MW (by power increase) – The Contract was started in 2001; HPP Olt Inferior 20 units of 13,25 MW – The Contract was started in 2004; HPP Lotru 3 units of 175 MW – The Contract is under bidding preparation, and will be financed by IBRD bank, whom the loan agreement was signed with; Rehabilitation of lockgate in Iron Gates I; HPP Stejaru-Bicaz 200 MW; HPP Raul Mare 2 x 167,5 MW; HPP Mariselu 3 x 73,5 MW; HPP Sugag 2 x 75 MW; HPP Galceag 2 x 75 MW; HPP Vidraru 4 x 55 MW.

After evaluations, 2650 MW shall be refurbished, with an additional energy of 349Gwh/year, and a power gain of 160 MW and expenditures in the amount of EUR 1800 mln (own sources and loans).

Privatization - Hidroelectrica strategy comprises 3 programs which are related to the hydroenergy target units proposed for privatization with 466 MW energy generation, 1700 GWh/year energy production and an investment of 1230 million EURO: finalizing hydropower objectives that are under various stages of execution by founding IPP with private capital attraction; continuing the MHPP privatization by organizing open biddings for around 100 de MHPPs, grouped on watershed basins; initiating the privatization process for the Hidroserv repair branches.

In 2004 there was initiated and started the privatization by selling of 150 MHPPs with the purpose of rehabilitating and upgrading them. There have been organized open bids in which took part companies from Romania, but also from the Czech Republic, Singapore, France and Italy. Six such bids were organized by 31.12.2006 and 48 MHPPs were privatized by selling.

International Cooperation - In today's fast-changing world Hidroelectrica is undergoing constant improvement so as to contribute to the sustainable development of the Romanian power system and become an efficient, reliable and competitive player on the European electricity market as meeting energy needs in a sustainable manner is one of the most important challenges of the 21st century. In order to operate as a leading company in the energy market shaping up amid the increasingly dynamic process of liberalization, Hidroelectrica's International Cooperation department endeavours to contribute effectively to reaching the targets set in the development strategy. In this respect, the approach is to take important steps forward in terms of cooperation, which means not only accomplishing but exceeding our goals, building at the same time reliable long term business relations.

It is important to mention that Hidroelectrica constantly strives both to expand the existing relationships with its partners and to develop new cooperation relationships with renowned international partners. Consequently, an important accomplishment in terms of cooperation is the loan agreement signed with the International Bank for Reconstruction and Development within the Energy Community of South East Europe Project (ECSEE APL #1) regarding the rehabilitation of the Lotru station in Valcea County. The loan amounting to EUR 66 mln is part of a program aimed at integrating energy systems in South East European countries into the internal energy market of the European Union. Following evaluation of the bids according to the World Bank's procedures, the rehabilitation contract was signed with the joint venture formed by Voith Siemens Hydro Power Generation GmbH & Co KG.

Additionally, a part of this loan is used to finance a contract for consulting services, which consists in a twinning arrangement aimed on one hand at institutional development of Hidroelectrica and on the other hand at preparing a feasibility study for a pumped storage hydropower station. The consulting services are provided by the consortium of IPA Energy/Verbund/Poyry which won the selection process carried out in accordance with World Bank's procedures as well.

One of Hidroelectrica's priorities and part of the cooperation with the World Bank is the selection of alternatives for hydropower development with potential involvement of private sector. The study will be completed by a selected consultant.

Also, Hidroelectrica established a cooperation with the Swedish company SWECO International AB in order to perform Consultancy Services for Stejaru-Bicaz Rehabilitation and Upgrading project. The agreement between the two companies has as main objective the accomplishment of the feasibility study for Stejaru-Bicaz Rehabilitation and Upgrading project through co-financing. The Swedish Ministry for Foreign Affairs has granted 50% of the total cost of the Consultancy Services.

It is worth mentioning the cooperation with the Serbian-Montenegrin partner in the view of operation and maintenance of the National Hydropower and Navigational Systems of Iron Gates I and II, within the Romanian – Serbian-Montenegrin joint commissions, which meet annually in two sessions.

With a forward looking vision, Hidroelectrica focuses on the promotion of bilateral economic cooperation aiming at developing and strengthening partnerships on the basis of the principles of equality, mutual benefit and respect. Hidroelectrica plans to develop new projects and successful partnerships, to be flexible and adapt even better to market requirements, to enhance its business dynamics and to consolidate its leading position on the energy market. Taking into consideration the urgent necessity for the modernization of the Romanian power sector by attracting foreign investors, technology and know-how, so that Romania be in line with EU standards, Hidroelectrica is actively involved in the development of cooperation relationships with experienced partners, facilitating projects' implementation for a sustainable development of all parties involved.

On the other hand, Hidroelectrica is a committed participant in the activities of international organizations and professional associations in this field and seeks to maintain close relations with its partners in the electricity market. Hidroelectrica is proud to be a member of: INTERNATIONAL HYDROPOWER ASSOCIATION (IHA), EURELECTRIC (Union of the Electricity Industry), INTERNATIONAL COMMISSION ON LARGE DAMS (ICOLD), INTERNATIONAL NETWORK ON SMALL HYDROPOWER (IN-SHP) and WEC (World Energy Council) - the foremost multi-energy organisation in the world today.

For the future we will continue focusing on expanding and strengthening the cooperation actions with a series of companies, institutions, organizations and international associations in this field, signing new contractual relations while consolidating the existing ones.

We firmly believe that building and maintaining solid cooperation relationships are key factors in achieving significant progress and fulfilling strategic objectives and that is why we permanently strive for better quality of the relationships with our partners.

Environmental Protection - as our values state HIDROELECTRICA has always been preoccupied of operating its power plants in an environmentally friendly manner while keeping a high quality level. We take the responsibility to: foresee pollution; reduce the impact of our organizational activities upon the environment; increase the transparency and encourage the dialogue with all factors involved in the environment protection; involve and motivate the whole personnel to assume a responsible behaviour towards the environment; promote partnership action with organizations and agencies interested in the hydropower field long-lasting development. For that reason the Iron Gates Subsidiary was equipped with an installation for water surface oil product skimming, called "Skimmer".

In addition, Romania ratified the United Nations Framework Convention on Climate Change. By signing the Kyoto protocol, our country committed to 8% emissions reduction from 1990 levels by 2008-2012. Consequently HIDROELECTRICA took a first step in meeting this target with the sale contract for emissions reductions with Senter International from Netherlands, within ERUPT II program.

In August 2006 HIDROELECTRICA was audited in view of certification of Combined Quality – Environmental management system which fulfils the requirements of the Standards: ISO 9001 : 2000, ISO 14001 : 2004 and OHSAS 18001 : 2004.

OUR SUPPORT FOR THE COMMUNITY

In 2006 HIDROELECTRICA continued its activities not only in sponsorship and donation but also awarding scholarships to students in terminal years of the Technical University - Faculty of Energy, the Civil Construction Institute and the Academy of Economic Studies.

HIDROELECTRICA and its "Social Dimension" stands for a modern concept and for the year to come, we aim for an evolution in this very important aspect for the company.

LAST BUT NOT LEAST

In a world where power is a major driving force, HIDROELECTRICA stands ready for the challenges to come, ready to make a difference.

HIDROELECTRICA aims to maintain its leading position taking into account the new development perspectives and opportunities for the energy market by a realistic approach and intense efforts focused on efficiency, target achievement and increasing its reputation for reliable and ethical business conduct.

We endeavour to acquire a new dimension in the energy field combining our experience with a quality oriented attitude and innovative ideas.

For the future HIDROELECTRICA will continue to promote sustainable development while taking into account a range of ethical and environmental considerations.

Ideas become solutions

Linde Gas

Linde

The Linde Group is a world leader among industrial gas and engineering companies. It combines the local presence of Linde and BOC to form a strong global network. We are particularly well positioned to expand opportunities in the most important growth markets in the gas industry. In September 2006, Linde and the BOC Group plc merged and formed the most growth-oriented group in its industry. Now the Linde Group has 53.000 employees all over the world, serving a wide range of clients in over 70 countries. In 2006 the Group achieved a turnover of 12.4 billion Euro.

In Romania, the first investment carried out in 1996 made Linde Gaz Romania one of the success stories of industrial development. After more than ten years of development on the Romanian market, Linde Gaz Romania pursues its growth providing at the same time a substantial support to the progress of the most dynamic branches of Romanian industry. Having a team of over 300 employees, Linde Gaz Romania is present all over the country, according to the actual needs of the clients.

As leader of the technical gases market, Linde Gaz Romania has a wide offer that is available throughout the national territory. Through the quality of its products and services, Linde Gaz Romania allows the development of high tech units and increases the dynamism of industrial and economic growth. The impressive surge of Romanian market, whose growth rate counts two digit figures was just initiating in 1996 as the first technical gases filling station was started up in Timisoara.

At that time, the first project that Linde Gaz Romania started carrying out with German accuracy and rigor was a joint venture with the UMT – a Timisoara – based heavy industry manufacturer. Although post-socialist recession was still felt bitterly, Timisoara was already a distinguished city that started an impressive industrial development supported by massive capital inflows. Located in the proximity of two borders with East – central European countries, the city had assets that made it the favorite destination of foreign direct investments. Although the investments carried out by Linde in Romania count tens of million Euro, the most outstanding impact to analysts of economic life is the security it provides to large industrial investors. The security that any large scale industrial operation in the country has access to top quality technical gases supply, being known that gas supply is an essential element of industrial operations.

Along over a decade of growth, each year brought new technical developments as well as commercial: The global re-location of manufacturing operations meant that more and more companies needed here the quality, operational security and safety of deliveries proved by Linde Gaz Romania. In order to deliver on time, every time, an impressive network of production units was developed. The production system is able to satisfy the highest demands of European companies operating in Romania. Production facilities were additionally developed through a logistic network made up of 58 storage facilities that ensure fast deliveries for over 15.000 Linde clients.

Romania is a market with a huge potential that was accurately identified by Linde since the first investment in 1996. Today, Linde Gaz Romania contributes to the development of Romanian economy both with products and services difficult to match in terms of quality and with a highly competitive technology in all production units. The state-of-the-art technology is sustained by the quality of the workforce proved by the total absence of security incidents. Linde Gaz Romania operates air separation units in Timisoara, Cluj-Napoca, Ploiesti and Ramnicu Valcea. Moreover, three acetylene production units are operated in Timisoara, Ploiesti and Galați. A hydrogen installation is operated in Ramnicu Valcea. Three other independent gas filling stations are operated in Timisoara, Bucuresti and Cluj-Napoca for all the range of technical gases. Linde Gaz Romania also operates five oxygen filling plants (in Baia Mare, Oradea, Brasov, Iasi and Constanta) and CORGON® filling station in Galati.

In 2005, Linde Gaz Romania inaugurated the most modern air separation unit in Ramnicu Valcea. The facility has a daily capacity of over 500 tonnes of oxygen, nitrogen and argon. The investment retained public attention both for the impressive technology display and for its size – 25 million Euro of the total 73 million Euro invested by Linde in Romania by 2005. The global vision and locally geared action allows Linde to employ for the air separation unit in Ramnicu Valcea only highly skilled local personnel.

The unit in Ramnicu Valcea supplies on-site oxygen to the Oltchim SA chemical plant, confirming a strategy of long-term presence in Romania. The values of Linde group, compatible with highly dynamic economies, inspire technical innovation and consolidate a significant presence in Romanian economy.

In 2006, Linde Gaz Romania commissioned a new headquarters in Timisoara, thus becoming even closer to its clients from western Romania. The constant investments carried out by Linde Gaz Romania ensure a constant and safe supply of technical and medical gases adapted to all needs. Linde Gaz Romania included the country in the global circuit of technical innovation, as the Romanian market is a preferred destination of technical premieres that make Linde a champion of applied research.

Technical gases are involved in maintaining health and improving the quality of life. As "unseen helpers", they perform invaluable services for mankind and environment. Industrial gases from Linde carry out specific tasks in almost all industrial segments: key applications for the metal processing industry from arc, flame, and laser technologies to thermal spraying; custom-made solutions for refineries, petrochemistry, pharmaceutical production, rubber and plastic processing, construction and water treatment; high quality gases for beverages, modified atmosphere packing, freezing and cooling, transport cooling and dry ice applications in the food industry; medical gases like oxygen is life saving in various situations and nitrous oxide is used for anesthesia and pain relief; helium and carbon dioxide are two other gases for healthcare uses, etc. .

Linde Gaz Romania supplies technical gases to major companies in Romania such as the Damen Shipyard in Galati, the Constanta Shipyard, Zoppas Industries and Solectron or companies from the chemical industry (e.g. Oltchim Ramnicu Valcea), as well as companies from the consumer goods industry such as Brau Union and Coca Cola.

ROMPETROL
energie vie

Rompetrol Group

Is one of the top 25 multinational oil companies in Europe according to revenues. The Rompetrol Group is headquartered in The Netherlands, is operating in 13 countries, and has the majority of its assets and operations based in Romania, France, Spain and South-East Europe. The group is active primarily in refining and marketing / downstream, with additional operations in exploration and production, and other oil industry services such as drilling, EPCM, transportation etc.

Aiming to consolidate its major player role, in the South-Eastern European region, the Black Sea and the Mediterranean Sea, Rompetrol adopted and implemented a new operational management system, meant to sustain the Group's expansion, but also enhance the performance of its 40 member companies. The companies are consolidated in four main core operational entities (Business Units), according to their activities and the services rendered. Other operational entities support the main core units with resources and expertise for success in their activity. The services rendered are a prerequisite to the core business to operate properly, while the people involved in these activities are definitely the most important capital of our company. With a staff of more than 8,000 employees, TRG reported gross revenues of \$5,6 billion for 2006.

The Rompetrol Group's operational structure is the following:

Business Unit Refining

Rompetrol Rafinare (Petromidia)
Rafinaria Vega
Rompetrol Petrochemicals

Business Unit Trading

Vector Energy
Trading Romania
Dyneff Trading
Midia Marine
Rompetrol Logistics (primary)
Shipping

Business Unit Marketing & Retail

Dyneff Retail
Rompetrol Downstream and Romoil
Rompetrol Financial Group
Romcalor Oil Services
RP Gas
Marketing
Logistics (secondary)

Business Unit Upstream

Exploration & Production
Rompetrol Well Services (Petros)
Drilling

The four main core business entities are also supported by the **Technical Center of Excellence** made up of:

Rominserv
Palplast
Rominservices Therm

and **QHSE**, including:

Rompetrol Quality Control
Ecomaster Ecological Services

Among The Rompetrol Group companies we would like to mention:

Rompetrol Albania
Rompetrol Bulgaria
Rompetrol Georgia
Rompetrol France
Rompetrol Moldova
Rompetrol Ukraine
Rompetrol Russia

The Rompetrol Group aims to become one of the largest independent oil companies in Europe and contribute to the European energy security by obtaining a strong position in the Black Sea and Mediterranean areas.

Transelectrica

WHO ARE WE ?

Transelectrica is the Romanian Transmission and System Operator (TSO) which plays a key role in the Romanian electricity market. It manages and operates the electricity transmission system through its 8,950 km of overhead electric lines, while providing electricity exchanges among Central and South – Eastern countries, as a member of UCTE (Union for Coordination of Transmission of Electricity) and ETSO (Association of European Transmission and System Operators).

Transelectrica is responsible for electricity transmission, system and market operation, grid and market infrastructure development, ensuring the security of the Romanian power system. It also serves as the main link between electricity supply and demand, matching all the times power generation with demand.

Transelectrica aims at becoming the technical and operational authority of the Romanian power system and the key-transmission operator in South-East Europe, while operating interconnected to UCTE and providing electricity wheeling to the regional market

Since August 2006 Transelectrica is being listed to the Bucharest Stock Exchange with 10% of its shares. They were introduced at a price of 16,8 RON and 6 months later were valued at 39,6 RON. This is a very good message for our investors. Now, 76.5% of Transelectrica's shares belong to the Ministry of Economy and Commerce - MEC, 13.5% to the "Property Fund", (an investment dedicated to the compensation for the goods that have been confiscated under the communist regime) and 5% of MEC's part will be also dedicated to the compensation for the confiscation of property during the communist regime.

WHAT WE DO ?

Structure of Transelectrica Transmission and System Operator of the Romanian Power System

- grid infrastructure maintenance and development
- the dispatching infrastructure (EMS/ SCADA – Energy Management System/ Supervisory Control and Data Acquisition)

Balancing Market Operator - OPE

- balancing market platform operation

Commercial Operator of the electricity market - OPCOM , a legal subsidiary

- trading platforms
- green certificates trading platform

Metering operator of the wholesale electricity market – its branch OMEPA

- the metering system

Telecommunication and IT operator –TELETRANS, a legal subsidiary

- the optic fiber, digital telecom system

Transelectrica's core activities

- Technical and operational management of the Power System, to ensure the safe and stable operation of the system
- Operation, maintenance and development of its assets
- Forecast for the Romanian Power System and transmission network development
- Market administration through its legally independent subsidiary OPCOM
- Management of interconnections and electricity transits with neighboring countries
- Capacity allocation on interconnections
- Green certificates allocation
- Transelectrica does not trade electricity, except to cover its own technical transmission losses

HOW WE DO ?

To support its objectives, Transelectrica, with its 2,150 dedicated professionals:

- promotes the latest state-of-the-art technologies
- promotes project-oriented activities
- enhances the commitment and qualification of personnel
- attracts foreign and domestic capital

Given the TSO neutral role, Transelectrica has gained full confidence from market participants

Main responsibilities

- Is responsible for the continuity and security of electricity supply
- Ensures qualitative and safe electricity supply to consumers, while observing the electricity parameters, in compliance with the Technical Grid Code
- Provides real time control of the power system, by using balancing market mechanisms and contracted ancillary system services
- Ensures the non-discriminatory and transparent access to the transmission grid for all market participants
- Operates, maintains and develops the transmission grid assets and associated power system control, telecommunication and metering facilities
- Manages power flows, while ensuring the equilibrium between demand and supply
- Ensures interconnected operation with other power systems within the UCTE system
- Provides appropriate trading platforms for the electricity market, including settlement and clearing services through its fully owned subsidiary, Opcom
- Ensures the metering service for the wholesale electricity market
- Ensures IT and telecommunication services through its fully owned subsidiary, Teletrans

Main objectives

- to make its own services competitive by reducing the associated costs
- to obtain adequate operational revenues, reflecting the current business risks
- to increase the company's financial soundness
- to keep on improving its ratings for internal and external financial debts

Transelectrica's international relations

- **Professional Foreign Partners:** UCTE, ETSO, SUDEL
- **International Financial Institutions:** IBRD, EBRD, EU-PHARE, EIB, KfW, NIB, JBIC, WestLB, USAID
- **Affiliation at International Organisations:** EURELECTRIC, CIGRE, WEC, LWA
- **European Grid Partners:** All European Transmission and System Operators

Development of international interconnections:

- 400 kV Oradea (RO) - Nadab (RO) - Bekescsaba (HU) OHL
- 400 kV Gadalín (RO) – Suceava (RO) – Balti (MD) OHL
- 400 kV Timisoara (RO) – Vrsac (Serbia) OHL
- Undersea interconnection line between Romania and Turkey

Short profile:

CHIMOPAR S.A. is one of the oldest and well known
production enterprises on the Romanian chemical
industry, established in 1896. CHIMOPAR S.A.
manufactures a wide range of chemical products, with
applications in all areas of chemistry, Biochemistry,
Petrochemical, Food & Beverages, Pharmaceutical,
Metallurgic, Textile, Glass, Ceramics, Auto,
Agricultural, Cosmetic and other industrial sectors.
CHIMOPAR S.A. has implemented an integrated
quality environment management system that was
certified by TUV CERT certification body TUV
MANAGEMENT SERVICE. Hence our current
activities comply with both ISO 9001:2000 and ISO
14001:2004. Also, our quality control laboratory has
obtained accreditation by RENAR which qualifies
CHIMOPAR S.A. to provide quality control services to a
third party. CHIMOPAR S.A. is certified by the
ROMANIAN AUTOMOTIVE REGISTER (R.A.R.) for
Brake fluids (LIFROM DOT3 and DOT4) and Antifreeze
(GELSOL). Also CHIMOPAR S.A. is the only producer
of METHOXYPROPANOL in Romania. This product is
used as: 1 - solvent in varnishes and dyes, 2 -
component in special ink manufacturing, 3 - additive for
metallic surface cleaners, 4 - component in many
cleaning composition. For more details about our
products please visit our website www.chimopar.com.

Brands: CHIMOPAR S.A., LIFROM - BRAKE
FLUID DOT3 & DOT4, AUTOCLAR - WINDSHIELD
WASHING SOLUTION, GELSOL - ANTIFREEZE,
CHIMPEROX - PEROXIDE.

Short profile:

FARMEXIM was founded in 1990, and is the first import and distribution company of pharmaceutical products in Romania. During 17 years of activity, Farmexim has imposed itself as an important player and it has actively and dynamically involved in the development of the

pharmaceuticals sector, a very dynamic and competitive field. Our primary goal is to become the main supplier of pharmaceutical products for the open-care pharmacies and one of the first 3 top-ranked pharmaceuticals distributors in Romania. As a pharmaceuticals importer and distributor we dedicate our efforts to the fulfilment of people's aspiration for a healthier life, by providing high-quality tailored services for our customers, in an environment of respect, professionalism and innovation. Farmexim was ranked in 2006 in the first 4 pharmaceuticals distributors on the retail market in Romania and has developed a national distribution network with 13 local branches in major cities of the country: Bucharest, Bacău, Brașov, Cluj, Constanța, Craiova, Galați, Iași, Oradea, Ploiești, Sibiu, Tg. Mureș and Timișoara.

KOMPASS EXTRANET

Less TIME to search, more time TO ACT

How do you find the right information?

Most business people find search engine results too vague
Just 8% of people are completely happy with results from their current solution

Badly targeted marketing is expensive
30% of people say they spend more time searching for people than communicating with them

Efficient access to information is crucial to maximise profit
Good product classification reduces the time spent searching for essential information

Extranet gives you a competitive advantage

- Refine your search using 25+ selection criteria
- Save selection criteria for repeat use
- Simple and advanced search options
- Add "Notes" to individual company records
- Multiple download options (inc. CSV and XML)

Global content with local support

- 2.1 mn detailed company profiles
- 53.000 product and service classifications
- Data collected locally in 68 countries
- Currently available in English and French, soon in 20 other languages including Romanian, German, Chinese, Russian
- Technical Help and User Support Service

Comprehensive and in-depth content

- European database: 41 countries; 1.3 mn companies; 10 mn products and services; 576.000 trade names; 2.9 mn executives
- Worldwide database: 68 countries; 2.1 mn companies; 23 mn products and services; 790.000 trade names; 3.6 mn executives

Multiple access options and usage monitoring

- Possibility to access the Kompass database on your Intranet
- Completes your Intranet, with more information made available to your employees
- Access goes through an Internet connection
- Access control by: Username / Password; IP address; Referrer
- User management available to you locally (web based, statistics, ...)

ALUMINIUM
FOR FUTURE

- ▲ Established on 1st of March, 1961
- ▲ First batch of smelted aluminium on 30th of June, 1965
- ▲ Capacity 262.000 Mt per year as of 2006
- ▲ Registered to the London Metal Exchange
- ▲ IQ NET, ISO 9001, ISO 14001 and ISO 18001 certified

Alro is a public Romanian company with shares traded at the Bucharest Stock Exchange.

Producing 262.000 metric tons of primary aluminum, Alro is the largest aluminum smelter in Central and Eastern Europe (excluding Russia).

Alro's production processes and products have been certified in accordance with international standards ISO 9001, ISO 14001 and ISO 18001 (OHSAS 18001). In January 2006 Alro obtained the integrated environmental authorization.

For the past 40 years Alro has been making an important contribution to supporting Romania's economic development and external trade, providing jobs for about 3.600 people, and supporting more than 20.000 family members and workers in ancillary sectors.

Alro products are known in more than 25 countries.

The Alro strategy for the next 10 years stipulates the following objectives:

- * transforming Alro into a solid vertically integrated company capable of producing more than one million tons of alumina per year, 450.000 tons of primary aluminum, and up to 120.000 tons of flat aluminium products;
- * changing the product mix towards a greater share of alloys and high added value products;
- * developing partnership with international companies in bauxite mining and delivery to secure sustainable bauxite supplies for alumina production purposes;
- * setting up a sustainable, electric-power supply base for alumina and aluminum production by entering into competitively priced, long-term electric power supply arrangements with hydro- and nuclear power plants, as well as by creating its own generating capacity;
- * enhancing the Company's competitiveness on the global market;
- * increasing the Company value and making it more attractive for portfolio investors.

ALRO produces and sells:

- ▲ Billets of primary homogenised aluminium alloys
- ▲ Primary aluminium wire rod
- ▲ Primary aluminium and primary aluminium alloy slabs
- ▲ Primary aluminium alloy ingots
- ▲ Aluminium semi-products: plates, sheets, coils

Our mission is to preserve robust economic growth while remaining in the league of most efficient and fast-growing aluminum companies focused at technological innovation, product quality improvements, and environmental protection.

We seek to continuously develop the key components of our success — dynamism, efficiency, quality, safety, technologies, and personnel.

We seek to carefully preserve the time-honored traditions of Romanian engineering, while being open to the world's best technical and technological achievements.

Alro's success benefits the Company's shareholders, employees, customers, the local community and society at large.

We seek to advance the shareholders' interests through state-of-the-art, efficient and productive activities ensuring:

- * world class operating efficiency and product quality performance;
- * continuing profitability throughout the aluminum price cycle, with profit margins comparable to those demonstrated by the world's leading aluminum plants.

We seek to advance the interests of employees by pursuing a personnel management policy that:

- * Enables employees to develop in accordance with the highest industry standards, both professionally and personally;
- * Ensures compliance with contemporary safety and security standards;
- * Ensures adequate compensation and social protection levels.

We seek to advance the interests of our customers by:

- * Supplying top-quality products;
- * Delivering products in time and in accordance with the schedule requested by the customer;
- * Improving the product mix and delivery terms.

We seek to develop our production capacity, with due account taken of the environmental requirements by using the most advanced, efficient and environmentally-friendly technologies which make it possible to minimize the adverse effect of the production process on the environment.

KOMPASS KOMMARKET

Specialized access for professional purchasers

Web application giving purchasers a professional access to the Kompass data (like Extranet for sellers):

- Part of kompass.com
- Using data from kompass.com via XML
- Only for purchasers
- Mass e-mailing of purchasing requests
- Whole administration of the purchasing process included in Kommarket
- Kommarket keeps detailed statistics about each supplier contacted

FACILITIES

Global content with local support

- 2.1 mn detailed company profiles
- 53.000 product and service classifications
- Data collected locally in 68 countries
- Currently available in English and French, soon in 20 other languages including Romanian, German, Chinese, Russian
- Technical Help and User Support Service

Comprehensive and in-depth content

- European database: 41 countries; 1.3 mn companies; 10 mn products and services; 576.000 trade names; 2.9 mn executives
- Worldwide database: 68 countries; 2.1 mn companies; 23 mn products and services; 790.000 trade names; 3.6 mn executives

LEVELS

Basic version - free of charge: password required - free of charge; signing a contract (Terms & Conditions agreement) compulsory - against spam; possibility to send purchasing requests to all the Kompass advertisers delivering an inquired product; non-advertisers will receive an e-mail only if there are not at least 20 advertisers delivering the inquired product

Advanced version - payment required: with a subscription only; signing a contract (Terms & Conditions agreement) compulsory - against spam; possibility to send purchasing requests to all the Kompass companies by e-mail or fax; all functions of the whole purchasing application available (including Auction)

Machinery

SIEMENS**Short profile:**

We have started our operations in Romania 100 years ago being involved mainly in the following business areas: Information & Communication, Automation and Control, Power, Transportation, Medical and Lighting. We provide our customers with our comprehensive experience and solutions so they can achieve their objectives fast and effectively.

As a GLOBAL NETWORK OF INNOVATION, our goal is to achieve a sustained increase in company value. As innovation cycles continue to accelerate, we can only remain successful if we accurately identify promising future trends well in advance and then shape them by achieving technology leadership.

Executives:

General Manager: LIVIU GHEORGHE

Short profile:

Established in 1996, Probass S.A. has shortly become a key-player on the Romanian financial-banking software market. Our option for quality is reflected in the products that we are developing, in the services and technologies that we deliver to our customers. The result is shown in a series of integrated systems, which

respond to the complex needs of medium and large size companies. Starting with 1998, Probass became an Oracle partner, and began the use of Oracle development products. For us, 2001 has been a very significant year for it marked the implementation of the first representative product of our company: the ab-Solut integrated banking information system, until now implemented at 10 banks in Romania. The fact that we already have as clients 10 financial institutions that successfully use our solutions is a strong proof for our experience and knowledge of the demands of the financial – banking market in Romania, so that we may promptly answer to all the requests of our clients.

Annual turnover: 2,719,580 EUR (2006)

Short profile:

COSMOTE Romania, member of the COSMOTE Group, launched its commercial operations in Romania in December 2005, with the aim of making mobile telephony accessible to all Romanians. COSMOTE Group has the widest presence in South Eastern Europe with over 11.2 million customers region-wide. Sharing COSMOTE Group's corporate philosophy, COSMOTE Romania brings to the local market the Group's vision, creativity, commitment and customer-centric philosophy. From the very beginning of its commercial operations, COSMOTE Romania undertook an ambitious network rollout plan as well as a customer-centric commercial strategy in order to make quality mobile telecommunications services accessible to all. During its first year of operations on the Romanian market, COSMOTE registered over 1.23 million customers and a market share of over 7%.

Short profile:

Euroweb Romania is one of the leading Business ISPs in the country and a major wholesale data player in the local market. Euroweb provides business and corporate entities with complete range of reliable services in areas of Internet access, voice (TDM and VoIP) and data transmissions (leased lines and VPNs). Euroweb's mission refers equally to the wholesale market, especially in relation with local and regional operators, providing them with data transport services, hi-capacity Internet and voice transit services. Company's long time records in telecom industry, proper manner of doing business and quality of provisioned services brings Euroweb Romania the title of "Best ISP of the Year" at IT&C 2005 Awards Gala.

You are in the company of leaders!

UPC is one of the most dynamic multinational companies in the cable communications industry in Romania and aims to become, for as many Romanians as possible, the unique access point to information, entertainment and communication.

Communications to the highest standards

UPC is part of Liberty Global, Inc. (LGI), one of the worldwide leaders in providing video, voice and data services, with operations in over 17 countries, out of which 11 in Europe. Present in Romania since 1992, UPC has become the largest television and internet provider, by gradually merging local cable communication networks and by constantly improving its services.

Investment in quality

Between 1992-2005, UPC has invested over 100 million USD in upgrading its networks to European standards, has modernized the centers and customer care departments, has upgraded the internal processes and has invested in the professional training of its employees.

In October 2005 Liberty Global International has acquired Astral Telecom, the transaction value being of 407 million USD. With over 500 million USD invested since 1992, UPC has become the biggest US investment in the country. The company intends to make large investments in Romania also in the following years – in launching triple-play services in all large cities, in improving the infrastructure to be able to provide integrated communication services and excellent relations with its clients.

UPC Services

UPC aims to become the most important company that connects Romania to the 3rd millennium technology, through the fastest broadband services, digital and satellite television, telephony or Video on Demand.

UPC values the time of its clients and believes that the hours they spend at home, in front of the TV, as well as the relationship with the cable services provider, must be as pleasant and simple as possible. To address the customer wishes, UPC provides many TV program packages, being able to satisfy many preferences. At the same time, UPC provides high-quality internet and fixed telephony at affordable prices in most large and medium-sized cities in Romania.

UPC Business Services - Communication solutions for companies

UPC through its Business Services division can ensure the most efficient solution for the companies that need stable high-speed connections in multiple locations in the country or within a city. By means of the modern and constantly improved infrastructure, the company can generate virtual private networks, efficient intranet and extranet systems, fast data transmission by specialized applications, private telephony networks, video-conferences, video monitoring etc.

Broadband Internet for your own business

At any moment you need to convey a great data volume by Internet, UPC Broadband would stand as the optimum solution for your urge, while providing a scaling and stable connection. Internet access is set by using broadband transmission mediums as optic fibers, TV cable, wireless waves and leased circuits.

A company may require several locations with guaranteed metropolitan bandwidth connections, thus being enabled into generating private virtual networks, interconnecting the local networks within only one intranet system, transmitting data requested by ERP and CRM applications, implementing private phone network, video-conferences, video monitoring, etc.

UPC Business Services provides optimum access capacity for web sites visiting, for transferring of the files or any other available resources: documentary materials, online leaflets and catalogues, audio and video files, electronic books, etc.

Communication at the widest scale

If you are a user of Broadband service you have complete access to the whole communication system needed by a company, therefore you can get all the help for the business you develop, because this service is available at the national scale.

In order to merge all the resources of the company in one compact network, UPC Business Services endows you with solutions for private virtual networks:

Intranet – granting the users with reliable access to confidential resources (secured) of the company;

Extranet – enabling business to business communication;

Remote Access – allowing the remote users or the ones on travel to benefit from the same high level of connection as the one set within the local network of the company.

You can really benefit by a web package consisting in accommodation services, e-mail domains, corporate web sites.

New and fast working technology

UPC Business Services can accomplish complete solutions for electronic communication by setting local networks with permanent access to data transmission and Internet.

The local network access can be established according to the company's resources, the number of the working units and the communication volume required. On these grounds, the technical solutions are implemented to a minimum basis, where one of the PCs used within the company can also be assigned to intermediate the access of the other working units connected to Internet. This basic solution is meant to cut out the expenses on purchases of independent equipment exclusively used for enhancing the outgoing access.

UPC Business Services access solutions can also set complex local networks that could run several servers, routers, switches, etc. The advantages provided by such solution consist in endowing the communication system with a continuous flow, an independent running and developing local resources (intranet sites, extranet, web, servers for e-mail, integrated audio and video communication, closed-phone network, etc.).

ROMENERGO S.A.

- Engineering & Design • Manufacture of Industrial & Energetic Equipment •
- Automation and Electronics • Harbor Operation Services •
- Energy Supply & Distribution • Tourism, Restaurants & Selected Bulls •

Sound skills & tireless work for increasing performance

ROMENERGO GROUP means several private companies, rallied around ROMENERGO SA, the parent company, sharing common ideals and values.

RECONT S.A. is a private joint stock company, located in Timișoara, specialized in hydro-mechanical, electric & automation engineering and design.

ROMENERGO MECANIC S.A. is a private joint stock company, located in Bucharest, specialized in the execution of different components & subassemblies for metal working industry, hydro, fossils & nuclear power plants.

Products: condensers, ejectors, expanders, tanks, deaerators, coolers, housings, casings, base frames, wrappers, exhaust hoods.

FEA S.A. is a private joint stock company, located in Bucharest, dedicated to electronics & automation.

Products: low voltage distribution panels, complex automation and control equipment, analog electronic instruments, electronic weighting systems, single and double-sided path printed circuit boards.

UMEX S.A. is a private joint stock company, located in Constanța, offering loading, unloading, moorage, lashing, storage and container handling services.

OPTOELECTRONICA S.A. is a private joint stock company, located in Bucharest, involved in the research and micro-production of components for opto-electronic applications.

Products: mini-lasers, remote sensing, opto-electronic devices for communications and medical applications, progressive lens.

TRANSMARINA S.A. is a private joint stock company, located in Constanța, specialized in agency, chartering and brokerage.

ALLPRO S.A. is a private joint stock company, located in Craiova specialized in the trade with saw machines and saw bodies.

SEMTEST S.A. is a private joint stock company, located in Craiova, specialized in raising and exploiting of breed bulls for the production of frozen seminal material.

ROMENERGO's organization chart includes also some branches carrying on distinct activities:

Berceni & Calea Floreasca Distribution Stations, valuable investments made by ROMENERGO which enhances ROMENERGO's abilities in energy field.

Placed in an industrial area of Bucharest town and stretching on about 15,000 square meters surface, Berceni Station has an installed capacity of 446 MVA. The professionals working in the distribution stations provide not only energy supply and distribution services, but maintenance and rapid intervention too.

AZUGA Tourist Base, located in Azuga town, on Prahova Valley, its object being the administration of ROMENERGO activities in tourism. Aware of the tourism potential of Azuga town, for both winter and summer periods, ROMENERGO started on April 1993, quite apart of its core business, an investment project aiming to establish, develop and exploit a tourism & entertainment base in this area. The first step was the construction of a sky track on Sorica north versant, with a length of 3,100 meters, 104 ski lifts and a capacity of 400 peoples per hour. The following facilities have been added: two ski slopes, sky-lift, snack-bars at the departure & arrival stations, a renting center of sporting equipment, a nice hotel with 27 rooms, bars and restaurants and an entertainment club with 8 lanes of professional bowling, billiard, discotheque, bar and restaurant.

The restaurants "LA NOVA" and "PIZZA NOVA - ORHIDEEA" offering our clients the unique Pizza Nova crust, in eleven combinations of tastes, cold and warm dishes, creams-soups, chicken, pork and beef dishes, fish and salads.

remco
 Romania s.r.l.

**Short profile:**

Remco Romania SRL is designing, manufacturing and erecting industrial buildings in all sectors of activity (production, transport, storage, distribution, wholesale trade, retail trade, service industry and sport and recreation). Remco is having their own steel structure system, known internationally as Remco Building Systems. The principle of our concept is based on maximum efficiency in the use of steel, coupled to an excellent price ratio. The large clear spans that can be achieved with this concept make optimum use of every square meter possible. Consequently, Remco industrial halls are characterised by a high degree of functionality, low construction - and exploitation costs and a large amount of free usable space.

SUMMA

R O M A N I A

After an impressive experience within the SUMMA Inc. group of companies, SUMMA Romania is presented on the Romanian market through the projects we have completed: Shopping Mall Plaza Romania, Office Building Bucharest Corporate Center - Generali Office Building, Millennium Business Center, and the North Gate Business Center.

As a general contractor SUMMA Romania provides these services:

- feasibility studies • project financing •
- architectural design • turn-key construction •
- engineering • property development •
- logistic and procurement •

We are the fastest growing Romanian company and we are proud to mention that we have been involved in the most challenged landmark projects of the Romanian market. Also, our track of projects emphasizes the know-how of the company, our firm commitments in front of our clients as well as our purposes.

SUMMA Romania core values - respect and value people, integrity, stewardship, service to others come to underline our work philosophy as well as our desire to be helpful for our people, our clients and the society as a whole.

Our mission is to follow our development processes to the best recognized European company and thus to contribute by building a better tomorrow.

Romstal Imex is the most dynamic and important company on the Romanian market that commercializes installation systems for construction. Established in 1994, the company has developed to this day an international network of 165 sale points in 4 countries: 126 in Romania, 15 in Moldova Republic, 23 in Ukraine and 1 in Italy. In Romania, besides the 6 stores in Bucharest and the 14 own branches, there is also the largest network of representative foreign branches working as franchise on the installation system market.

In 2002 Romstal became a multinational company by opening the first store on Moldova Republic market, followed by the entry on the Ukraine market in 2003 and the expansion in Italy in 2004. The turnover achieved in 2005 on the 4 national markets, including the one in Romania, is of 155 millions euro and according to our evaluation, it has exceeded 200 millions euro in 2006 – an annual growth of 31% in Europe. This constant rhythm will lead to the achievement of the agreed targets for the year 2015, meaning a turnover of over 500 millions euro and the most important distribution network of Eastern Europe, with 300 sale points in the area.

Romstal Imex achieved in Romania a turnover of 135.6 million euro in 2006, according to our own evaluation, which represents more than 2 halves of the European turnover from last year.

The success of Romstal is also given by the fact that it has developed one of the largest franchise

networks in Romania, covering the whole territory of Romania. Starting from January 2007, the franchise specialized in installation field is named Expert Instal and includes over 90 locations in the whole country. The project regarding the development of the network stores has 2 elements: covering the demand from the present markets by opening branches in middle and small locations and expansion on new international markets. The year 2007 will bring new stores in Romania that are already in various stages of organization, of type Expert Instal representative and Romstal branch.

The current offer of the company includes over 20.000 products of a widely recognized quality that Romstal applies as the policy of the company. The portfolio of Romstal is divided in 6 categories, run by qualified divisions: Thermo, Klima, Hydro, Sanny, Electro and Ceramic. The most important elements for Romstal are quality and brand: Pexal, DAB, Caleffi, Aquatherm, Walraven, Georg Fisher, Hermann, Viessmann, Sime, Acson, Ideal Standard, Jacuzzi, Novabagno, Schneider Electric, Bticino, Linea Light, Kolarz, Versace, Ceramicas Aparici, Undefasa, Ibero Alcorense; the last ones are famous thanks to their high quality design specific for interior finishing. For most of the top brands from its portfolio, Romstal has the exclusive rights on the Romanian market.

An important advantage of Romstal on the market is the minimum delivering time practiced by the company, provided by the significant investments in logistics and in the regional warehouse network, by the permanent storage which in 2006 reached a

value of over 30 millions euros. Nowadays, our own transportation auto vehicles and the extended chain of warehouses belonging to the stores make Romstal the most important player on the installation market, the main supplier of the installation companies and of execution civilian and industrial buildings. These companies enjoy the exclusivity of the Romstal Partner advantage program and also the trainings offered by Romstal Academy both presented to the installation companies and also to the Romstal personnel for qualification. All these attributes of the company have been valued by a growth on the Romanian market of construction and construction materials in the last years.

Romstal Imex is the incontestable leader of the specific Romanian market for many years now when choosing and installing the equipments, and its success is due both to the extraordinary quality of the marketed products and also to the consultancy services, technical support, customer service for installation design. According to the GfK national study (nov. 2006 urban area, population with age over 21 years old) over 80% of the respondents advised that Romstal is a known company, reliable, with modern products that occupies by far the first place in the assisted notoriety of the producers, of the distributors and of the brands in installation field. This is also underlined by winning first place in the 2005 National Top of Private Companies, on the market of the sanitary installation equipment.

MOBEXPERT OFFICE

mobiliier birou și colectivități

Short profile:

Founded 14 years ago, the MOBEXPERT GROUP is the absolute leader of the furniture market in Romania. With an annual turnover of over 155 million EUR, MOBEXPERT is currently among the top 12 furniture producers in Europe. In Bucharest only, MOBEXPERT practically controls the house and office furniture markets. This incredible performance is due to the company's strategy which concerns three significant success factors: variety, accessibility and availability.

Short profile:

SAM MILLS company – ex UNI COM PACK, producer of consumption, industrial and fodder grits and semolina has been founded in 1994. The company has invested in a corn mill, which gradually developed, having at present the biggest milling capacity in the Eastern Europe (360 tons a day). SAM MILLS produces corn, semolina for consumption, wheat flour, corn oil, corn pasta (gluten free), mixed pasta (of common and durum wheat and corn), bulk sacked flours for bakery, corn for the beer industry and the snacks and fodder pasta. In 2007, SAM MILLS completed a 2 million EUR investment in order to launch on the European market a special range of gluten free pasta - Pasta d'oro 100% corn flour.

Brands: SamMills, Arpis, Pasta d'oro, Capitano

Annual turnover: 15,000,000 EUR (2006)

No. of employees: 370

Ownership: Private-owned: 100%; Foreign: 100%

Short profile:

In 2002, Marr Sugar Romania purchased a Sugar Plant in Urziceni, located some 50 km from Bucharest. The outcome of a massive capital investment was successful and it became evident when the plant re-started its operations in May 2003. With good marketing policies, focusing its efforts on its product sales, the high quality of the sugar and the competitive price, the company soon imposed itself in the market. In an ever changing and challenging world, through high calibre management and ultra-efficient workforce, we strive to make a difference in a positive way.

Brands: Marr Sugar, Dalba

Short profile: AGRANA Romania S.A. resulted as the merger (March 2005) of Zahărul Românesc S.A. Buzău, Danubiana Roman S.A. and AGRANA Romania Holding and Trading Company S.R.L. Bucharest. The company is running three sugar production units located in Tândărei (Ialomița County), Buzău (Buzău County) and Roman (Neamț County) and it is the leader of sugar market in Romania. The products, addressed to all customer segments, from industrial ones to small retailers and HORECA, includes crystal white sugar, liquid sugar and a large assortment of complex sugar (sugar with special granulation or ICUMSA grades, tailor made products for industry, brown sugar, jelly sugar, icy sugar and so forth). The company activity is focused to meet the customers needs in providing high quality products, thus becoming a reliable business partner.

Executives:

General Manager: REMUS BUCȘA
Marketing Manager: BOGDAN BĂRBULESCU

Registered capital: 200 RON

Annual turnover: 4,800,000 EUR (2006)

No. of employees: 35

Quality certificates: ISO 9001:2000 (in process)

Ownership: Private-owned: 100%; Romanian: 100%

Short profile:

Arpis International, located in Cluj-Napoca, is leader on the milling market in the CORN segment in Romania (27% market share). Arpis products portfolio is mainly formed of milling products (corn flour, grits, wheat flour) corn oil, olive oil, 100% corn flour or mixed pasta and balsamic vinegar. Arpis serves the traditional trade in Romania with the help of subdistributors (over 65 in all country's counties) and the modern trade directly by logistic platform or Arpis branches (București, Timișoara). "The Corn Master" is the unifying direction and the value which recommends Arpis products at exportation. Since 2007, Arpis has launched 2 ranges of special products: - Pasta d'oro, gluten free pasta (100% corn flour) and - Capitano, unrefined corn oil.

Brands: Arpis, Pasta d'oro, Capitano, GoldMaya

Executives:

General Manager: MARIAN TRUȚĂ

Registered capital: 579,667 RON

Annual turnover: 7,275,821 EUR (2005)

Net profit: 824,807 EUR

No. of employees: 224

Auditor: Club Finanțe

Quality certificates:

IFS (certification still in progress)

Ownership: Private-owned: 100%; Foreign: 100%

Short profile:

The company, Tecsa Business, is one of the most important producers on the Romanian sweets market. The range of products produced by Tecsa Business is very wide and it can be classified in five groups of products: Biscuits; Wafers; Candies and Toffees; Halva; Turkish delight. The distribution of our products is made by specialized firms, with whom we have long term contracts – covering the entire sweets market of Romania. We transport our products using new auto vehicles – daily transport capacity is over 100 tones of products. Also, our company has commercial relationships with some of the most important players in the Romanian market (Metro – one of the top five sweets sellers, Carrefour, Cora, Plus, Minimax, Auchan etc.) Our 3 million EUR investment, which will be finalized during 2007, will increase our turnover with 40%.

Romanian Gerovital

by Prof. Dr. Ana Aslan

Short profile:

S.C. FARMEC S.A. was established on 1st of June 1945. In 2006, the name FARMEC means the biggest Romanian cosmetics producer and one of the largest in Europe. Nowadays, company's main focus is on the cosmetics, deodorants and household production and distribution activities. Entirely privatized in 1995, FARMEC today has a turnover of 19 million Euros and employs 640 people. According to a recent market study carried out by MEMRB market research company, S.C. Farmec S.A. is the local (Romanian) market leader for the 'face care' segment and is ranked second for the category of products designated for body, hands and feet care. The company's product portfolio is very diversified, encompassing more than 400 products, not only cosmetic products and deodorants but also household products. S.C. Farmec S.A. most well-known brands are Gerovital H3 - prof.dr. Ana Aslan, Aslavital, Gerovital Plant Bio, Gerovital Plant Forte, Aver, Farmec.

Pernod Ricard Romania

It started in France and has taken over the world

THE SUCCESS STORY OF PERNOD RICARD

Meeting Pernod Ricard

Pernod Ricard is what many may call "a success story". It was founded in France in 1975 and has taken over the world since. Starting with the merger of two French companies Pernod and Ricard, continuing with its ambitious acquisition plans and its brilliant employees' strategy, and finishing with the present worldwide success, meet Pernod Ricard!

The Who's and How's of Pernod Ricard

Pernod Ricard is the second operator worldwide in spirits and wine with strong positions on every continent. It is number one operator in Europe and in the Asia Pacific zone. It is the second wine and spirits operator in both North and South America. The group is the number four operator of the wine worldwide market. Pernod Ricard has 101 production sites and 17,600 persons working for it in more than 70 countries. Since its founding in 1975, the Group has developed one of the richest portfolios in the industry through internal growth and ambitious acquisitions, more specifically the Seagram acquisition in 2001 and the Allied Domecq one in 2005. Its on-going success is due to a powerful corporate strategy. In other words, Pernod Ricard focuses on its key brands; it has developed strong local and regional brands and has wholly-owned distribution networks in all major markets. And it works as a highly decentralized organization, which is motivating its talented employees.

Nurturing Global Success

Business success means meeting your clients with the best products and services, and continuous development in order to meet more and more clients in need of perfect services and strong brands. Global success means all these above, but at a worldwide scale, which makes "worldwide" more difficult. And "worldwide" is a word with which Pernod Ricard got quite acquainted with. From French merger to global presence, let's take a look on how the company used the last 30 years to transform itself into a production and distribution giant. Since its first year on the market, Pernod Ricard acquired Campbell Distilleries - in 1975. The story continues. Five years later it bought Austin Nichols (bourbon), from the United States of America. Some other five years after, in 1985, it went for Italy and acquired Ramazotti (bitters). The story yet continues: Ireland, 1988, acquisition of Irish Distillers (Irish whiskeys), Australia, 1989, Orlando Wyndham (wines), Cuba, 1993, the creation of Havana Club International (rum). Pernod Ricard went for Spain and Armenia in 1997 and, respectively, 1999 and acquired Larios (gin, brandies and wine) and Yerevan Brandy Company (brandies). In 2001, the company put a green light on some of its most ambitious acquisitions: it bought Wyborowa, Poland (vodkas), Jan Becher, Tchechoslovaquia (bitters) and the wine and spirit activities of Seagram. The same year it made an agreement with Sogrape for the distribution of

Sandeman (Porto) and with Kirin, for the distribution of Four Roses (Bourbon). Last but not least, its next world acquisition and one of Pernod Ricard's most ambitious moves was the 2005 acquisition of Allied Domecq in partnership with Fortune Brands.

The Worldwide Results

Pernod Ricard in figures. Pernod Ricard produces 76 million cases of spirits each year and also 23 million cases of wine. 28% of its 2005/ 2006 turnover came from the two Americas. 33% of it came from Europe, while 28% of the income was obtained from Asia and other areas of the world. The rest of 11 percents came from the French market - the place where it all had started. 41% of its spirit production is represented by whiskeys. Next come white spirits and rums, with 25%, followed by aniseed and liqueurs both with 11%. The last on the list are cognacs and brandies, with 8% and bitters, the rest of 4%.

The Pernod Ricard wines come from some various places: from Australia (41%), New Zealand (14%) and Spain (23%). Other wines are obtained in France (5%), Argentina (5%) and in other countries (10%). Its 12 key brands are surely not strangers to our readers. Many of you must have tasted on more than one occasions the lovely aromas of Ricard, Ballantine's, Chivas Regal, Kahlua, Malibu, Beefeater, Havana Club, Jameson, Martell, The Glenlivet, Mumm, Perrier-Jouët. And these were just the key brands of its global presence. Let's take a look into what Pernod Ricard calls the local brands. If you have never tried one until now than you surely got to take a zip of these beautiful local specialties on the first occasion: Seagram's gin, 100 Pipers, Amaro Ramazzotti, Clan Campbell, Wild Turkey, Royal Salute, Tia Maria, Passport, Olmeca, Pernod, Wyborowa.

Success stories

As many of us know, "success stories" are two words that have been so widely used that a real success story may not be considered at its true value for exactly the reason that it is named in this manner. Success stories come together with facts. And here there are some of the Pernod Ricard portfolio stars and facts. Chivas Regal. Described as 'rich, rounded in the mouth, of very good quality', Chivas Regal is acclaimed by customers. A study carried out by the independent institute, Synovate, in March 2003, selected it as the 'most prestigious Scotch whisky in the world'. The brand also won the gold medal at the International Cocktail Challenge in 2002 and 2003.

Fact: Every second, someone is buying a bottle of Chivas Regal somewhere in the world

Havana Club. As one of the fastest-growing premium spirit brands worldwide, Havana Club sales have increased fivefold over the last decade. Today, Havana Club enjoys international brand status with nearly 2.6 million cases sold in 2006. This success owes as much to the quality of Havana Club rums as to the company's highly creative marketing approach. The brand's first-ever international advertising campaign was launched in 2006, marking a decisive step in the development of consumer dialogue. Havana Club International aims to achieve sales of 5 million cases by 2013.

Fact: Since its launch in 1993, Havana Club had 13 years of uninterrupted sales growth.

Jameson. The Jameson brand of whiskey was created by John Jameson in 1780 and the Jameson whiskey was distilled in Dublin until 1975. Today it is produced by Irish Distillers, a Pernod Ricard subsidiary, in Cork in the south of Ireland. Jameson is obviously well established in Ireland, but today it is also consumed in all four corners of the globe, from Australia to the United States, from Finland to South Africa.

Fact: Since joining the Group in 1988, Jameson has had year on year growth of almost 9% and reached a total sales volume of 1.6 million cases in 2003. This uninterrupted growth over more than 16 years is without parallel anywhere in the world, and makes it the fastest growing of all international whiskeys.

Martell. The worldwide market for cognac is flourishing. 135 million bottles were exported in 2005, up 6% on 2004 and the latest in a string of increases stretching back to 2001. The Martell cognac brand has capitalized on this favorable environment, building a presence on every continent in recent years. The Martell story starts in 1715, when Jean Martell, having left his native Jersey, founded the company that bears his name and is today the oldest of the great Cognac houses. His descendants were tireless in protecting and building on the founder's heritage. The twentieth century was to be marked by a series of brilliant successes, such as the launch of the renowned Cordon Bleu in 1912, acknowledged internationally as one of the truly great cognacs.

Fact: On the strength of uninterrupted volume growth for the last three years, the Martell brand is ranked third in the worldwide cognac market.

Jacob's Creek. Australian wine brand Jacob's Creek is this year looking back over 30 years of an irresistible rise to popular and critical success worldwide. In 1976 Orlando Wines released the label on the Australian market with a Shiraz Cabernet Malbec. Full-flavored and easy on the palate, it broke new ground in wine-drinking. It didn't require years of cellaring, and was very accessibly priced. Jacob's Creek is the world's most popular Australian wine. The first bottles of Jacob's Creek Riesling were exported to the UK in 1984. In 1997 Orlando Wyndham (Australian exporter) embarked on a global marketing drive to double the sales of its icon wine. By 2001 over four million cases were sold. In 2005 the number was seven million. Exports to over 60 countries account for 85% of Jacob's Creek sales.

Fact: In the last 10 years Jacob's Creek wines have won over 3,500 awards.

Pernod Ricard in Romania

This year Pernod Ricard is celebrating five years of existence on the local market. Its local branch was founded in 2002, after the company had taken over Seagram's. It is now the number one spirits importer in Romania. To more accurately express its local success, one may know that Pernod Ricard made its highest premium whiskey sales of all Eastern Europe in Romania, in year 2005. The current portfolio of Pernod Ricard Romania contains over 30 brands from different consumption categories, including whisky: Chivas Regal, Ballantine's, Royal Salute, Jameson, Queen Anne, gin: Beefeater, Seagram's, vodka: Wyborowa, cognac: Martell, rum: Havana Club and champagne: Mumm and Perrier Jouët.

Cash & Carry

METRO

Company: METRO CASH & CARRY
ROMÂNIA S.R.L.

Address:

Șoseaua București-Ploiești, Nr. 289,
Otopeni, Județ ILFOV
Phone: +40-21-208.12.68
Fax: +40-21-208.11.42
E-mail: pr@metro.ro
Website: www.metro.ro

Short profile: METRO Cash & Carry Romania opened its first store in October 1996, being the first company to introduce a new trading system - cash & carry. In the following years, the company concentrated on expanding the sales network reaching a number of 23 stores with a total selling space of over 158,000 sqm and a range of 17,500 products. Based on the results reported for 2005, METRO Cash & Carry Romania was ranked 4th in TOP 100 Private Companies from Turnover point of view and 6th from Profit point of view.

Taking into consideration the company development, reliability and also the financial results from previous years, METRO Cash & Carry Romania was ranked 1st on TOP 50 the Most Successful Romanian Companies, thus rewarding 10 years of existence on the Romanian market. The turnover for the year 2006 was higher with 14.8%, compared with 2005, reaching the level of 1,429 billion Euro.

Executives:

President: IULIAN DASCĂLU

Short profile:

Founded in Romania (Iasi City) in 1991, Iulius Group is one of the most important shopping center developer and operator in Romania. Among the most important company achievements we can mention both Iulius

Mall Iasi (34,000 sqm), the first mall in East Romania, and Iulius Mall Timisoara (83,000 sqm), the largest mall in West Romania. The beginning of 2007 find the company in an extremely dynamic position, as Iulius Group prepares the development of 3 new projects: Iulius Mall Cluj (121,157 sqm, scheduled to be opened in October 2007), Iulius Mall Suceava (57,000 sqm - grand opening in 2009) and last, but not least, Iulius Group's most ambitious project – Palas (220,000 sqm – to be completed in 2010), introducing the 'lifestyle concept' for the first time in Romania.

The concept of hypermarket – a modern form of distribution, already popular in the west – is still at its first steps in Romania. With a very successful worldwide activity as the first retailer in Europe and the second in the whole world, the French distribution group Carrefour invented the concept of hypermarket and was the first to export it into Romania.

Being present with over 7.500 stores in more than 29 countries on 3 continents, the group Carrefour is successfully following its commercial objectives ("everything under the same roof, at the very best prices every day").

Carrefour's goal in Romania is to establish a development rhythm of 2 hypermarkets per year, opened in Bucharest and in other cities with more than 170.000 inhabitants.

The Carrefour Militari Commercial Center, inaugurated on June the 27th, 2001 at the beginning of the highway Bucharest-Pitești, was extremely well received by the Romanian consumers.

The hypermarket sales area is of 10.500 sqm, there are 2.000 parking spaces and 58 cash desks. The commercial gallery has 6.500 sqm and includes 34 different stores and restaurants.

Carrefour Orhideea was the second hypermarket opened in Romania, also in Bucharest, and it is part of a very modern and innovative commercial center.

The Orhideea Commercial Center was opened on September the 24th, 2003. The hypermarket has a sales area of 8.500 sqm, 1.400 parking spaces and 56 cash desks.

The commercial gallery is 7.500 sqm wide and includes some 62 stores and restaurants.

On February the 25th, 2004 Carrefour Colentina was opened, a hypermarket that continues the idea of modern commerce implemented in Romania by the group Carrefour.

The hypermarket sales area is of approximately 9.000 sqm, there are 1.550 parking spaces and 60 cash desks. The commercial gallery has 5.300 sqm and 33 stores and restaurants.

On October the 21st, 2004 Carrefour Brașov Commercial Center was inaugurated, with the first hypermarket outside the Romanian capital. The sales area of this store is of 8.000 sqm, it has 54 cash registers and 1.300 free parking spaces. The commercial gallery of 3.900 sqm includes 19 stores and restaurants.

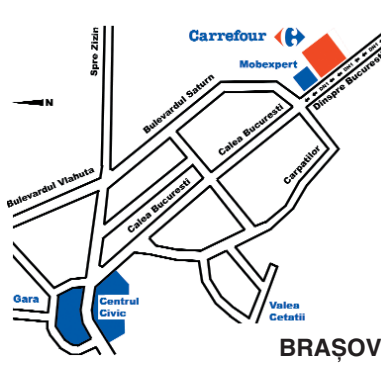

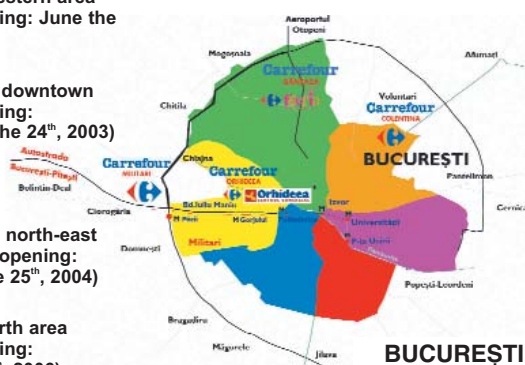

Carrefour Ploiești Commercial Center was inaugurated on the 19th of October, including the second hypermarket, succeeding Brașov outside the Romanian capital. The sales area of this store is of 8.000 sqm and it has 53 cash registers and 1.400 free parking places. The commercial gallery of 1.327 sqm comprises 21 stores and restaurants.

• Militari - western area
(grand opening: June the 27th, 2001)

• Orhideea - downtown
(grand opening: September the 24th, 2003)

• Colentina - north-east area (grand opening: February the 25th, 2004)

• Feeria - north area
(grand opening: April the 12th, 2006)

• Brașov
(grand opening: October the 21st, 2004)

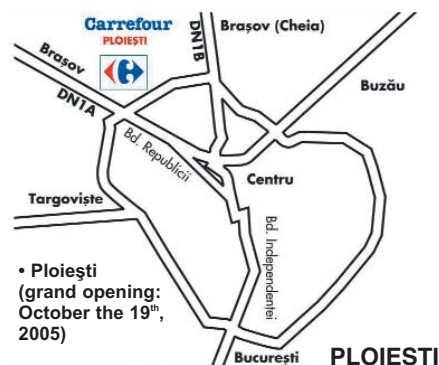

• Constanța (grand opening: October the 4th, 2006)

Carrefour Băneasa was the sixth hypermarket opened in Romania on the 12th April in 2006 and the fourth in Bucharest. Part of the modern and innovative commercial center called Feeria, the hypermarket has an area of 8.800 sqm, 1.600 parking places and 57 cash desks. The commercial gallery is 13.000 sqm wide and includes some 77 stores and restaurants.

The most recent Carrefour opening is that of Carrefour Constanța, as part of commercial center TOM, on October the 4th, 2006. The store has a 8.500 sqm sales area, 1.300 free parking places and 46 cash desks. The commercial gallery includes 90 stores and restaurants.

Carrefour hypermarkets are created by the standards of the most modern concept of hypermarket, in which all items are fully adapted to the Romanian consumer's habits. An impressive variety of articles, from fresh foods to the latest generation of computers, they are all under the same roof at low prices every day!

Carrefour strategy is built on five major values, all of them appreciated by the Romanians: a very aggressive price discount policy, our goal being to increase the purchasing power of the customers; a wide range of products - 60.000 articles, representing one of the best offers on the Romanian market in terms of quantity, quality and variety; a very good quality of all fresh products; a top level client services established from the very beginning; modernity and innovation.

Ever since the opening of its first hypermarket in Bucharest, Carrefour offered the Romanian customers many services, some never tried here before:

- more than 2.000 free parking spaces per store (with areas specially set out for people with physical deficiencies)
- free access in the hypermarkets, with no identification card and even with children – we offer our clients special caddies for children, with little cars attached
- a gas station, in Carrefour Militari area, where we have the best quality gasoline at the best prices every day, and also a water pump and an air pump
- the possibility of purchasing through installment credit, really fast and easy, products that cost 5.000.000 lei or more
- test benches, where every appliance can be tested before being bought
- free delivery within 30 km for large appliances
- large trying-on cabins
- tobacco boutique (selling cigarettes, tobacco, fine drinks and newspapers)
- the possibility of ordering cakes for special occasions
- dedicated cash registers for Photo, Gastronomy, Jewels, fast desks for less than 10 products purchased, special desks for voluminous articles, preferential desks for pregnant women or physically challenged persons
- multiple possibilities of payment: cash, credit cards or vouchers

Conceptually, the group plans to develop and to adapt even better to the Romanian market, to permanently bring into this market new ideas in order to meet the demands of all its clients.

Our strategy always meant the perfect adjustment of our range of products to the clientele and the consumer habits in the areas we opened our stores. The perfect selection of references allows us to purchase large volumes of merchandise in very good conditions, conditions that then reflect in the low prices we offer our clients. Also, over 90% of our suppliers are Romanian companies, one of our strategies being to encourage Romanian suppliers/ producers and to develop beneficial partnerships for both the clients and the Romanian industry.

Most often the performances of a society are presented only in terms of sales turnover or applied techniques, without mentioning the most basic dimension. Our wish is to share with you another concept that we are very proud of: the importance our group gives to people.

The developments of competencies and responsibility, the transparency of the information and of the action are as many basic values of Carrefour's Human Resources policy all over the world. Also in this particular field the culture of our group is expressed by other powerful values: the trust in people and the respect of the promises we make.

Carrefour represents a real force when it comes to creating new jobs.

For many Romanians, working in one of the Carrefour hypermarkets will mean the possibility of working with real professionals, which have a really long experience in the field, of learning different professions and having access to management positions. At this moment the staff of Carrefour Romania has already a quite impressive number of Romanian managers and the group is continuously training young Romanian employees for key-positions in its hypermarkets.

For Carrefour, its people represent the most important value. Because of that, we began an ambitious project: IFRG (Tge French-Romanian Administration Institute). Initiated in 2001 in collaboration with the IUP (Professional University Institute) in Clermont-Ferrand, ASE Bucharest and some other multinational societies present in Romania (Dacia-Renault, KPMG, BRD-Societe Generale, Danone, McCann Erickson, Michelin, Gide Loyrette Nouel, L'Oreal, Alcatel, SDV-SCAC), this project has as main objective the training of young Romanian professionals according to European standards of enterprises' management and administration. And it is only the first step in reaching our ambitious goal: a 99% Romanian management structure.

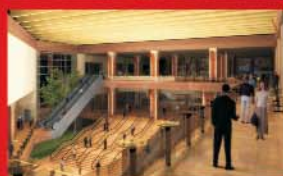

We have invested
in **515,157** sqm
of shopping &
entertainment.
Until now.

DEVELOPMENT MANAGEMENT LEASING

Company Profile

Founded in Romania (Iasi city) in 1991, IULIUS GROUP is one of the most important shopping center developer and operator in Romania.

Having a 18.94 million Euro turnover in 2006, IULIUS GROUP is a company found in full development and which in time, has demonstrated its capacity of approaching innovative, large scale projects.

Among the most important company achievements we can mention both IULIUS MALL Iasi (34,000 sqm), the first mall in East Romania, and IULIUS MALL Timisoara (83,000 sqm), the largest mall in West Romania.

The beginning of 2007 finds the company in an extremely dynamic position, as IULIUS GROUP prepares the development of 3 new projects: IULIUS MALL Cluj (121,157 sqm, scheduled to be opened in October 2007), IULIUS MALL Suceava (57,000 sqm - grand opening in 2009) and last, but not least, IULIUS GROUP's most ambitious project - PALAS (220,000 sqm - to be completed in 2010), aiming at transforming from an urban perspective, one of the downtown areas of Iasi, with a historic tradition and placed in the vicinity of the Palace of Culture, the emblematic building of Iasi.

Projects to be opened

1. Supposing an investment of over 200 million Euro, the Palas project will be developed on a gross built area of 220,000 sqm in the period comprised between the 1st semesters of the years 2007 - 2010.

The multifunctional Palas project integrates in a structure that is unique in Romania, entertainment and recreation spaces, water mirrors, sports activities (artificial skating-rink, roller alley, skateboard, swimming pool), cultural activities areas (open-air amphitheater, exhibitional areas, galleries), collective residences, utilitarian spaces (covered pedestrian passages, planted spaces, mini-squares, ground and underground parking lots), as well as spaces destined to economic activities (offices, retail spaces, hotels, restaurants, travel agencies).

2. Scheduled to open this autumn, IULIUS MALL CLUJ represents a natural continuation of the objectives notified by the company: implementation of a national shopping center network, that will introduce the IULIUS MALL brand in the Romanian cities having over 200,000 inhabitants.

With an investment of 62 million Euro, Iulius Mall Cluj will constitute a retail and entertainment attraction pole located in the heart of Transylvania: 150 stores, hypermarket, 10-auditoriums multiplex cinema, food court and restaurants, cafes, fitness club, children playground, climbing wall, skating rink, aqua park.

CARGUS
ROMANIAN COURIER

Safe Box Safe Delivery

How do you know you've succeeded?

When you've done successful business for 15 years.
When you've done it in a hard field on a new market:
express delivery in Romania. That's how we know, at Cargus,
that we've succeeded.

Our secret to success? The safety of delivery:

- Safety in numbers: the extremely low percent of unsuccessful deliveries: 0,002 %.
 - Safety that helped us getting the A+ rating from the Romanian Centre for Economic Modelling.
 - Safety for which our clients come back to us, over and over again.
- For 15 years.

Discover Cargus. 15 years of safety.

During our presence on the market we have proven our ability in meeting our clients' expectations keeping a client-oriented attitude. Our global partners had chosen us as the most efficient and reliable relocation company in Romania.

GRAMPET S.A. BUCHAREST, ROMANIA

114 Calea Victoriei, Sector 1, 010092, Bucharest, Romania
Phone: + 40 21 317.30.90 Fax: + 40 21 317.30.91

The activity of the group of companies **Grampet S.A. Bucharest - Romania** is covering important sectors of Romanian economy, with an increasing evolution for the last years. GRAMPET S.A. Bucharest - Romania has a complex investment programmes regarding the development and the modernization of its companies, in order to meet international standards. The group of companies Grampet S.A. Bucharest - Romania develop the following activities: Freight railway transportation, Merchandise transshipment, Constructing, repairing and modernizing passengers and freights wagons, Tourism, Wine-making, Surface mine exploitation.

The group Grampet S.A. Bucharest - Romania includes the following companies:

GRUP FERROVIAR ROMAN S.A.

The company **Grup Feroviar Roman S.A. Bucharest** provides freight railway transportation and wagon shunting activities, being an authorized and a licensed railway transportation operator for these services and for current maintenance and repairs of wagons, locomotives and railway lines. The activity of GFR is carried on following main lines: freight railway transportation, freight wagons shunting, inspection works, current maintenance and repairs of any type of locomotives and any kind of freight wagon, current maintenance and periodical repairs of railway lines, wagon rental for freight railway transportation, logistic for freight railway transportation. The rolling stock material fleet is made of wagons (tank - for gas, diesel oil, crude oil, tank - liquid chemical products, platform, uncovered wagons -Eacs, Eaos, specialized for coal transportation - F series, specialized for cereals transportation - U series, specialized to transport chemical fertilizer in bulk - T series, specialized for aggregates transportation - Eakkmos series), locomotives (Electrical locomotives (LE), Diesel-Electrical locomotives (horse power - Hp), Diesel-Hydraulic locomotives), technological places for repairs, maintenance, inspection works, supply, equipage, etc, working and auxiliary spaces for the employees, including the train companion staff, integrated informatic system to survey the exploitation and economic activities, GPS system that allows to keep track wagons and locomotives, telecommunication system and data transmission. As a part of the constructing and modernizing programme of the company, another 1000 Fals, consolidate Eacs and Eaons wagons are to be built, by the companies specialized in constructing / repairing of rolling stock material from our group of companies. The modernization of the electrical and diesel electrical locomotives by Romanian repair service companies, corresponding to the new European requirements for railway transportation, made the current GFR locomotive fleet to be one of the most modern fleets in South Eastern Europe, locomotives that use the GPS tracking system that allows us to keep track of transports in real time. In order to meet the European Union requirements regarding the interoperability of the railway transportation which imposes the endowment with quality rolling stock material, the company is about to purchase a big number of modern locomotives, that will cover the necessary for this activity, and also wagons to transport different merchandises. The company Grup Feroviar Roman S.A. is an affiliated member of the International Railways Union (UIC) and an associate member of the Organization for Colaboration of Railways (OCCF). Having obtained freight railway transportation licenses for Hungary and Bulgaria, by the companies owned by Grup Feroviar Roman, the activity extended on the international transportation market.

GRAMPET BUITURI S.A.

The Buituri Hunedoara slag mining process aims to harness siderurgical waste by separating the steal industry slag from the mineral aggregates which are used in road construction under lucrative conditions. The following targets are reached: the rehabilitation of the industrial center Buituri Hunedoara dump, environmental and production potential rehabilitation, restoring the agricultural production potential to the field presently occupied by the Buituri Hunedoara slag dump.

Aggregate material types obtained as a result of the complex processing in Buituri Hunedoara slag dump are, as follows:

0-8 mm, 8-16 mm, 16-25 mm, 25-40 mm, 40-63 mm, 63-80 mm to serve road construction, maintenance and repair works;

0-3 mm, 3-7 mm, 7-16 mm, 16-31 mm to serve mineral adhesive concrete and mortar preparation.

To ensure an efficient slag dump operating process, Grampet has a high tech equipment line from United States, specialized in surface mining operations, unique in Romania. The present Grampet operating capacity of the slag dump reaches approximately 1.200.000 tones/ year. Siderurgical slag aggregates obtained in the crushing - sorting installation located at the Buituri Hunedoara slag dump are certified by legal stipulations.

www.grampet.ro

TNT Express is the world's leader in the business-to-business express industry, meaning international and domestic fast courier, logistics and express distribution.

The company delivers 3.6 million parcels, documents and pieces of freight a week to over 220 countries using its network of 900 depots, hubs and sortation centres. TNT Express operates more than 20,000 road vehicles and 43 aircraft and has the largest European Air and Road Network, offering a wide range of air and road transport services. Regarding transit times, TNT provides delivery of documents and parcels at destination within 24 hours on the domestic market, and within maximum 48 hours all over the world. TNT operates in more than 220 countries, meaning in more states that are UN members.

With more than 50 years of history, TNT started its operation in 1946, in Australia, when Ken Thomas founded Thomas Nationwide Transport (TNT), with only one truck. 15 years later TNT Ltd becomes public company, listed at Sydney Stock Exchange and 50 years from its establishment TNT became a worldwide organisation with its own aircraft fleet.

Starting 1999 TNT strengthens its position on the Romanian market by totally acquiring the Romanian company ROMCARGO (which has been acting as TNT agent since 1991).

After huge investments made by TNT in Romania, the vehicle fleet was extended to more than 180, serving around 10,000 customers. In Romania, TNT has more than 380 employees, all specialists in their line of work, 20 offices in all major cities, ensuring the delivery at destination of more than 20,000 documents and parcels weekly.

The cargo terminals of TNT Romania in International Airport Otopeni (since 1995) and International Airport Timișoara (since 2000) have become, within a short period of time, the main in-out gates for the international air and road traffic of Romania, which allows us to operate a continuously increasing volume of freight.

In 2001 Romania is connected to TNT European Road Network and Economy Express service is launched; a year later, the first dedicated TNT aircraft starts its daily flights to International Airport Otopeni. In less than 15 months from that moment (at June 16th, 2003) TNT Express brings the biggest cargo aircraft operating daily to and from Romania.

Moreover, at the moment TNT is the only express company that operates through 3 gateways (Bucharest, Timișoara and Cluj), so we can provide you with the best cut-off time on the market and the widest country coverage.

TNT Romania offers the widest range of services on the Romanian market, as follows:

PREMIUM SERVICES (9:00 a.m. and 12:00 a.m. EXPRESS) – leading global services to all major cities in Europe. Automate confirmation of delivery is also available.

GLOBAL EXPRESS – door-to-door service available for documents, parcels or goods; includes pick-up, customs formalities and delivery under signature; next day delivery in most of the countries.

ECONOMY EXPRESS – a unique door-to-door service in Romania ensures delivery of goods through the TNT European Road Network, anywhere in Europe. Economy Express is a door-to-door service, meaning that pick-up, customs formalities and delivery at final destination under signature are all included.

IMPORT RECEIVER PAYS – a service that allows our customers to pay the transport fees when receiving the goods in Romania; the applicable tariffs are those of TNT Romania.

SAMEDAY PREMIUM INTERNATIONAL - The fastest possible delivery service – dedicated delivery solution which leaves anytime during the day and provides delivery during the same day. When your shipment is very important and the time is pressing, Sameday Premium International offers you the solution for delivery at destination in less than 24 working hours. Service available for export and also for import.

SAMEDAY PREMIUM DOMESTIC – Service available for documents, parcels and goods, which include delivery anywhere in Romania, offering the fastest transport solution. Tailor-made service solution offered by TNT to meet your requirements for local and national transport.

SPECIAL EXPRESS (DOCUMENTS & NON-DOCUMENTS) - Global Express type solution, which offers special delivery / pick-up times. Door-to-door service available for documents, parcels and goods, which mean pick-up, transportation, customs clearance and delivery are made by TNT and are included in the tariff. Special Express includes pick-up and delivery from Monday to Saturday outside normal business hours and it's available for export and also for import.

WEF & AIRFREIGHT – Services suitable for various quantities of goods, available for destinations all around the world at the most competitive prices on

Our mission

- Our mission is to exceed customers' expectations in the transfer of their goods and documents around the world
- We deliver value to our customers by providing the most reliable and efficient solutions in distribution and logistics
- We lead the industry by:
 - Instilling pride in our people
 - Creating value for our shareholders
 - Sharing responsibility for our world

Our vision

The essence of what we strive for:
Delivering more

- Delivering more is about always going the extra mile, about always raising the bar, about always going beyond standard compliance, about always changing the paradigms, about our ambition to always lead
- Delivering more encompasses a can-do attitude, competitiveness, forward thinking, responsibility care and ambition
- Delivering more is optimistic. We are confident that we can overcome obstacles and achieve our ambitious goals
- Delivering more makes us stand out from the average

Our standards

1. Aim to satisfy customers every time
2. Challenge and improve all we do
3. Be passionate about our people
4. Act as a team
5. Be honest, always
6. Measure success through sustainable profit
7. Work for the world

the Romanian market. TNT Romania offers the possibility of the following pick-up / delivery options: door-to-door; door-to-airport; airport-to-airport; airport-to-door.

Depending on the route of your shipment, we can offer standard transport solutions – on air or combined – air with road, to be able to offer you defined transit times. Moreover, TNT Romania is one of the few carrier on the Romanian market that operates Dangerous Goods. „All risks” insurance option available at your request.

ECONOMY PLUS - TNT Romania offers you the solution of dedicated large trucks transport („Full Truck Load” type), as a direct shipment from sender to final destination. Economy Plus is designed for the large quantities of goods (vans with minimum payload of 3,5 tones) when time is not the most important, the service being available in Europe.

DANUBE EXPRESS - Fast courier transport service for parcels and/or goods to/from Hungary. The service is door-to-door and is available Monday to Friday during working hours both for imports and for exports; it also includes customs formalities.

DOMESTIC EXPRESS – door-to-door fast courier service within the country, available for documents, parcels or goods. Delivery under signature the next working day for most of the destination all over Romania.

WAREHOUSE SERVICES - Warehouse spaces of TNT Romania in Otopeni International Airport and Timișoara International Airport are at your disposal 24 hours a day, 365 days a year. Professional security systems, performing equipments and modern spaces guarantee handling and warehouse services offered in maximum security and safety conditions.

CUSTOMS CLEARANCE – TNT Romania is authorized by the Romanian Customs Authority to make customs clearance operations in Otopeni and Timișoara customs; consequently, we are at your disposal for any customs clearance related procedures.

INSURANCE – an option offered by TNT Romania for all its services, meaning that, by paying a 1% insurance fee, the customer will benefit from a full risk insurance.

TNT Romania offers a series of facilities which ensure quality services for its customers: dedicated staff for import operations, tender for customs operations, dedicated drivers team and free software for shipment administration, tracking and pricing solutions (ISolutions).

TNT has specialists, know-how and an informational system built on the most modern technology with worldwide coverage (second in the world after the USA Government's information system), which allows permanent access of all 3000 offices all over the world to the global database.

The website **www.tnt.com** gives the possibility to track shipment sent for delivery, to check the prices and the transit times.

The heart of business for TNT are the customers, trough that the company proving to be a reliable business partner and devising solutions for all the customers' transport needs by combining our core capabilities to create new products and services.

TNT Express employs 40,000 staff worldwide and is the first ever organization to achieve global recognition as an Investor in People.

PORSCHE BUCUREȘTI NORD

Short profile:

Opened at the end of 2002, Porsche Bucuresti Nord is one of the largest Volkswagen and Audi showrooms and service centers in Europe. It was built and equipped according to the latest quality and design standards recommended by the Austrian constructors. Benefitting from its 8,860 sqm of built area, Porsche Bucuresti Nord consists of the Audi, VW and VW Commercial Vehicles showrooms along with Weltauto second-hand park. Here you will also find highly specialized service stations for electric and mechanical problems, bodywork and paint issues, a complex spare-parts and accessories deposit, a technical inspection station and an automated car wash, all at your disposal. Porsche Bucuresti Nord follows the concept of a modern 'full service dealer', totaling an investment amounted to EUR 12 million.

Autoitalia Group

A complete portfolio of offers

For more than 14 years Autoitalia Group has been proudly representing in Romania some of the most famous car brands in the world, the strong spirit of the producers and their renowned tradition.

Fiat, Fiat Commercial Vehicles, Alfa Romeo, Lancia, Maserati, SsangYong and Honda Motorcycles have brought to the company, in 2006, an excellent sales volume of over 10 000 units, a record in the group's history and a true accomplishment on a market known for its competitiveness and its dynamism.

From the popular cars like Fiat Grande Punto, Fiat Albea, Fiat Doblo Cargo or Fiat Panda, to the sporty ones like Alfa Romeo and SsangYong off roads and to the exclusive Maserati, Autoitalia

Group can answer to any customer's demand using its extended experience and a range of strong points well known in the auto industry.

The Fiat brand, one of the engines that drive this company, will benefit this year from a highly expected car launch: that of the new Bravo. Fiat Bravo is a five door saloon, an Authentic Italian Beauty designed to give customers the substance that comes from outstanding safety and reliability, coupled with the enjoyable, sporty driving style that the whole world expects from an Italian car.

The launch of the new Fiat Bravo is also an opportunity to present the new family of turbocharged T-JET petrol engines (120 and 150 bhp 1.4 Turbo), which combine fuel economy, low emissions and exceptional performance, and which now join the popular range of Multijet Common Rail turbodiesels (1.9 litres delivering 120 and 150 bhp) and the 90 bhp 1.4 16v petrol engine.

Comfort is enhanced by the pinpoint steering and excellent roadholding, and the choice of two tried and tested suspension systems which have been suitably modified and updated: an independent MacPherson system at the front, and a semi-independent torsion axle with interconnected wheels at the rear.

The Fiat Bravo was awarded with 5 stars EuroNCAP. This success is based on many hours of passive and active safety test and also to the several airbags (as many as 7), three-point seat-belts with pre-tensioners and load limiters, and five head-restraints.

AUTOITALIA®
GROUP

www.autoitalia.ro

orn from Alfa's long, acknowledged experience in the production of prestigious sports saloons, the Alfa 159 heralds a new generation of cars from Alfa. Designed by Giorgetto Giugiaro in collaboration with the Alfa Romeo Styling Centre, the new car has an elegant, sinuous line, which combines generous dimensions with the compactness typical of Alfa Romeo sportiness. It has succeeded in combining performance and formerly irreconcilable targets: extremely entertaining driving, outstanding performance and distinctive styling with outstanding levels of safety awarded with 5 stars EuroNCAP, comfort and sturdiness, without compromise.

The interior of the new Alfa 159 embodies the balanced combination of elegance and sportiness that is the hallmark of all Alfa Romeo cars. It is underlined by essential, sober, clean lines and superb materials: quality fabrics, precious fine grain leather, aluminium that is cold to touch, and exquisite craftsmanship with the appeal of artisan handiwork.

The Alfa 159 guarantees the extraordinary road holding that is innate in all Alfa Romeo models. The merit goes to the new suspension (high double wishbones at the front and Multilink at the rear) and extremely precise steering (the most direct of the standard saloons, with a small turning circle).

Alfa 159 is equipped with a broad, comprehensive range of engines: three new JTS engines the 3.2 (260 bhp), the 2.2 (185 bhp) and the 1.9 (160 bhp) and three new diesel engines: 2.4 Multijet (200 bhp) and the two 1.9 Multijet (150 bhp and 120 bhp).

And finally, the range includes new mechanical gearboxes, all with six speeds, short strokes, precise engagement and limited loads. Automatic transmissions and a robotised Selespeed gearbox, also with six speeds, will be available on certain versions.

SsangYong Actyon: Extravagance in action.

AutoItalia has launched in Romania the brand new model from SsangYong, the compact SUV Actyon.

The dynamic and extravagant design, with a personality that makes the difference in its category, is one of its many strong points.

The interior is luxurious and comfortable, distinguished by a sportiness specific mainly for coupe models. Regarding the equipment and the price quality ratio, SsangYong Actyon can be placed at the top of its category.

The Common Rail turbodiesel engine 2.0 (141 bhp), offers enthusiastic dynamic performances and a reduced consumption. Besides the manual gearbox with 5-speed, Actyon offers the automatic 4-speed gearbox, as an alternative

for those that are looking for comfort in the traffic jam.

In order to meet all the customers' expectations, Actyon's range includes the Base, Classic, Business and Business Plus trim levels

The precise and sure road holding of SsangYong Actyon on the highway is completed with a very authentic off-road mobility as the one of an AWD specialist.

Depending on the road surface, the driver has the possibility of choosing between rear traction or AWD for his comfort and safety.

Porsche București Nord, the best Audi dealer in Romania

- The car dealer Porsche București Nord (PBN) delivers annually almost a third of the Audi models imported in Romania
- It was the first Audi car dealer in the country to deliver the Audi RS4 super-sport models in Romania
- The Bucharest dealer constantly invests in the improvement of its services
- Since 2003 Porsche București Nord launched a concept of cultural and social events meaning to point out the brand identity

Lately, the Audi brand has become one of the most appreciated brands on the market. The huge success of the premium constructor in Romania is due to the exceptional quality of Ingolstadt products and the professional services of the local dealers.

The strongest Audi dealer in Romania is Porsche București Nord (**PBN**), which delivers annually a third of the total sales of the Audi brand in Romania. Thus, the market share of this car dealer in 2006 represented

31% of the total, cumulating 541 deliveries (454 in 2005). Porsche Romania's plan for 2007 is to deliver an estimated 2,242 units of Audi models, hence for PBN the sales target was set to 610 units.

The success of the **Porsche București Nord** car dealer is also a result of its prompt response to each of the Audi clients' demands. In 2006 PBN succeeded in delivering the first three fast race Audi RS4 super-cars. This model represents the sport version of the famous premium, medium class A4 sedan, and it is equipped with a stunning V8 engine of 4.2 l with direct fuel

injection which produces 420 horsepower, as well as a maximum torque of 430 Nm. This German sports car goes from 0 to 100 km/h in just 4.8 seconds and reaches an electronically limited maximum speed of 250 km/h.

RS4 is also available in the Avant and the two-seat cabriolet versions, price starting from EUR 62,120 for the sedan model (VAT not included).

Porsche București Nord's concern for impeccable services is not something new for this car-dealer, the company having invested a great deal in this respect. One of the first steps taken this year was the Customer Satisfaction Poll which has become a permanent action starting 2007. "We are aware of the fact that only by providing exceptional services we can maintain this extraordinary position on the Romanian market. This is the reason why we have been constantly investing in the training of our employees both in sales and after-sale services", Mr. Traian Sandu, Sales Manager Audi said.

One of the main aims of **Porsche București Nord** is to keep organising numerous cultural events at its showroom in northern Bucharest. To do this, the dealer came up with Audi Artroom, which is considered a fairly elegant communication tool. Among the events, that **Porsche București Nord** has so far promoted there was the "Audi Photo

Academy Awards", an event where the most talented Romanian photographers were recognised and awarded. Also worth mentioning: numerous plastic art presentations as well as various theatre plays. An illustrative example would be the representation of Frederic Beigbeder's "Love Lasts Three Years" featuring the famous Romanian actors Claudiu Bleonț and Adriana Trandafir.

The Porsche București Nord car dealer also has a powerful connection with Romanian football. Thus, PBN is one of the main sponsors of Dinamo Bucharest Football Club for the second year in a row.

LEADERSHIP DEVELOPMENT SOLUTIONS

Proud to work with the best

Leadership is similar to night vision...

... it is fascinating!

*Since 1994, we help our clients attract and retain the best leadership capital.
It is vital for their success. In fact, they deserve nothing less.*

Leadership Development Solutions

In exclusive alliance with Korn/Ferry International

47, Alexandru Constantinescu Street, RO- 011472, Bucharest. Tel: (40 21) 224 71 24; Fax: (40 21) 224 75 05. Registration No. R6769390

E-mail: office@kfi.ro

www.kfi.ro

Leadership Development Solutions (LDS) is the first advisory firm specialized in retained direct executive search in Romania. Up to date, the company has completed more than 400 successful projects across various industries sectors of the Romanian economy. A fully owned subsidiary of Korn/Ferry International was established in Romania in 1994. In 2001, the subsidiary went through a successful management buy-out process. The former Managing Partner, Radu Furnica, took over the ownership of the firm and the name of the company was changed to Leadership Development Solutions. In 2005, the affiliation relationship was redefined as a strategic exclusive alliance, whilst the communication channels, the management of the relationship and the objectives were considerably refined and improved.

In Leadership Development Solutions we consider that our success is represented by the success of firms that benefit out of the skills and talents of people brought in their organizations with our help. We take great satisfaction to see how people that found a new career through us grow and feel rewarded. The relationships between the professionals and corporations are changing significantly. LDS possesses a deep understanding of the market evolution and a local network that is critical to our clients in a very dynamic and developing environment.

Our firm continuously refines the discipline and art of accessing the strongest and uniquely fit professionals, able to assume certain executive positions. LDS believes that passionate and fulfilled professionals make the difference between winning and mediocre companies. To those professionals we offer a portfolio of carefully managed companies that could provide access to high performance and opportunities to growth. LDS Senior Advisors solution-based work is driven by a great focus on client, highest quality, integrity, and dedication to match candidate's aspirations and companies' needs. They work closely with clients and candidates to shape human capital strategies and solutions. Leadership Development Solutions founded in 2005 the Leadership Alliance, a group of companies that will cover a broad spectrum of human capital solutions from executive & middle management search to assessments and career advice for individual clients.

Leadership Development Solutions is strictly specialized in:

- Quality retained direct executive search - LDS is exclusively focused at the top of organizations
- Counseling and recruitment for Board of Directors
- Individual career advice and solutions for top professionals

LDS sees as its mission to enable the individual and company clients to be successful, together. We take pride in contributing at the achievements of companies by finding best professionals that their organization and objectives need. Individual clients will find that LDS will honestly & devotedly advice with regards to their career goals.

Our firm continuously refines the discipline and art of accessing the strongest and uniquely fit professionals, able to assume certain executive positions. LDS believes that passionate and fulfilled professionals make the difference between winning and mediocre companies. To those professionals we offer a portfolio of carefully managed companies that could provide access to high performance and opportunities to growth.

Executive Search and Leadership Development in Romania

Romania's accession to the European Union is a reality. The most important career aspect for all Romanian nationals is that working within the European business environment will open up new challenges. The biggest of them will be to compete for their own professional identity. The country is characterized by a profound imbalance in demand and supply of top quality professionals. Unfortunately, this is the case, despite the fact that raw talent, high IQ and technical skills exist in abundance on the local market. What most Romanian professionals lack are proven track record and the exposure to the responsibility of making the final decision.

Romania's Pool of Professional Talent: the raw material of future development

Currently, the country's pool of professional talent is still immature, due to the high level of heterogeneity brought about by the large number of business cultures that have interacted here over the past 15 years. The composition of the sector of Foreign Direct Investment companies entering the country was very diverse, but did not contain significant multinational participation. Multinationals, especially North American, recognized for their strong business culture, are still underrepresented in Romania. Most of the FDI was brought by more entrepreneurial business cultures, of Balkan and Eastern Mediterranean origin, thus bringing into the country a less structured set of business values and principles. However few they were, the Western companies have created a much clearer identity and business culture for themselves and constitute the main attraction and No 1 employment preference of the Romanian professionals.

The Executive Search Industry in Romania: the process

If we are to look at the global industry and its major players it is significant to note that none of the largest retained executive search companies are present in Romania – with the exception of Leadership Development Solutions alliance with Korn/Ferry International. This can be easily interpreted as an indicator (and confirmation) of the low degree of attractiveness that the local market has had over the last 15 years. One of the most important aspects is that the industry is not regulated. There are no laws on Data Privacy, while the companies active on the recruitment market have little, if any, tradition in the field.

Executive search is based on one main premise that differentiates it from regular recruitment agencies. The search firm acts for the client, who is seeking the right senior manager for a specific role – or, for example, a team of managers to pioneer entry into a new market. The cultural dynamics are critical and are often the key differentiator in whether or not a candidate will be successful in the new role. Simply put, executive search is a mean of finding the highest-caliber professionals on the local, regional or international market. Confidentiality is paramount. A clear differentiation of the top executive search process is the fact that it focuses on finding who the best professional for a certain role is and not whoever is available. Executive search is oriented towards the client's needs and then finding the best suited candidate to those requirements.

In Romania's case, norms of professional behavior, standards of ethical conduct, the relationship between the employee and the employer need to be revised and "upgraded" to new and viable concepts and methods suitable to the Romanian environment. Credibility and high-quality professionalism remain the key words.

Using a high-quality executive search firm ensures that the client will benefit from confidentiality, a commitment to finding the right professional whatever the challenges, specialist knowledge of the industry, and the ability to secure the best players in a time scale tailored to the client's objectives.

FIRM OVERVIEW

Nestor Nestor Diculescu Kingston Petersen (NNDKP) is one of the largest and most respected law firms in Romania, providing a full range of legal and advisory services. The firm assists clients to structure and negotiate corporate transactions, including privatizations, share sales and acquisitions, asset transactions, mergers, reorganizations and liquidations. The firm has a premier dispute resolution practice, assisting clients with mediation, arbitration and trial and appellate litigation.

PRACTICE AREAS

General Corporate

NNDKP provides legal assistance in connection with business incorporations, corporate governance, entity and group reorganizations and modifications to capital structure, including capital increases, debt-to-equity swaps and share transfers. We provide practical corporate advice integrating tax, employment and other legal matters relevant to the client, as well as legal opinions on specific Romanian corporate law issues.

Privatization

Our lawyers participated in the first privatizations in Romania. Since then, we have represented clients in connection with many of the country's largest and most important privatization transactions across a range of industries, including banking, energy, steel, telecommunications and consumer products. We have extensive experience advising buyers, sellers, lenders and regulators in connection with these transactions.

Mergers and Acquisitions

We fully support the client's business objectives at each stage of the transaction, including evaluation of initial opportunities and alternative approaches, assistance with transaction structuring and development of risk mitigation strategies. We draft, negotiate and implement contractual and regulatory completion packages. Our lawyers have extensive experience with transactions in highly-regulated industries such as utilities, telecommunications, technology and pharmaceuticals.

Competition

Our lawyers regularly assist clients in connection with a variety of competition and state aid matters, including investigations, economic concentrations, structuring of vertical and horizontal operations, allegations of abuse of dominant position, as well as state grants. We have an excellent record of successfully representing clients before the Competition Council and the competent courts on significant legal issues, enabling them to obtain clearance for or defend their business conduct.

Banking and Finance

We advise local and international lenders in connection with financings to governmental bodies, local authorities and corporate borrowers. We assist borrowers with asset, corporate and project finance transactions. We have extensive experience with bilateral and syndicated lending, co-financing and refinancing projects. We provide legal assistance covering a wide range of banking operations, including structuring new product launches, preparation of standard agreements for specific products and services and assistance with regulatory matters, e-commerce and e-banking.

Securities and Capital Markets

We advise financial institutions, private equity and venture capital funds and the companies they invest in, as well as individual entrepreneurs. Our clients have closed, with our assistance, many of the largest financing transactions in Romania, including project finance, revolving and term loans, trade finance, issuance of debt instruments, derivative transactions and public offerings with listings on Romanian and international exchanges.

Intellectual Property

Our integrated team of lawyers includes a number of European and national certified intellectual property counselors. We advise clients on a full range of issues, including the protection of IP portfolios, acquisition, development, implementation, integration, protection, use, licensing, financing, marketing and sale of technology. Our lawyers and counselors have particular expertise dealing with counterfeiting and trademark infringement claims, as well as patent litigation.

Dispute Resolution

Our dispute resolution group has earned an enviable reputation for delivering positive results and providing high quality services. With more experienced litigation lawyers than any other firm in Romania, we efficiently help our clients resolve their business disputes. Our firm has extensive experience representing clients in administrative proceedings, litigation, local and international arbitration. We have special expertise in the management of complex cases involving multiple claims and parties.

Real Estate

NNDKP professionals assist developers, property owners, lenders and investors in connection with a wide variety of real estate transactions, including greenfield investments, construction agreements, financing and related securities, leasing, exit structuring and dispute resolution. We provide comprehensive advice concerning land use, zoning, title, regulatory and contractual issues. With our help, clients have constructed internationally acclaimed factories, office buildings, residential projects and retail space.

Public Procurement/PPP

Our many years of experience with Romania's rapidly evolving public procurement rules place us in a unique position to accurately interpret and resolve legal questions on behalf of our clients. We employ a wide variety of legal concepts to create stable and predictable contracts for transactions ranging from straightforward land concessions and supply agreements, to procurement arrangements in regulated industries and sophisticated public projects involving private sector financing and operation.

Taxation

NNDKP tax lawyers assist clients to structure a full range of domestic and cross-border transactions in a tax efficient manner. Among other matters, we advise clients on corporate income tax, permanent establishment, transfer pricing issues, individual resident and nonresident taxation, VAT, withholding tax issues, beneficial ownership, application of treaties for the avoidance of double taxation, capital gains issues and the tax treatment of stock option plan grants.

Environmental Law

We develop contractual provisions, enforceable under Romanian law, to deal with environmental matters and minimize environmental risks and assist clients in dealing with environmental aspects when implementing projects in Romania. Our extensive knowledge of evolving law and practice enables us to successfully negotiate environmental authorizations and agreements with national and local environmental authorities.

Employment Law

Our clients rely on us to help them attract and retain top local and international personnel through employment arrangements that comply with Romanian legislation. We assist with individual and collective labor contracts, internal regulations and policies, confidentiality, restrictive covenants and non-compete agreements, management contracts, stock option plans and other benefits programs, safety and health rules and regulations and with data protection implications in an employment context.

Immigration

We assist corporate clients with all their legal needs in connection with the relocation of foreign personnel to Romania, including advice on visa and work authorization issues, related corporate issues and implementation of employment and secondment arrangements. We prepare all relevant materials required to enable our clients' foreign personnel to live and work in Romania, including applications and supporting documentation, employment contracts, service contracts and lease agreements.

INDUSTRY AREAS

Energy

NNDKP has played a central role in virtually all of the major transactions in the Romanian energy sector, where our clients include international companies, the Romanian state and state-owned companies. We are active in the privatization and acquisition of energy companies, the financing of energy projects and the development and distribution of other natural resources.

Infrastructure

NNDKP has advised on nearly all major projects initiated so far in Romania for infrastructure design, financing, construction, rehabilitation, operation and maintenance. Our dedicated team of lawyers analyzes projects from multiple perspectives in order to develop cost-effective solutions tailored to the specific needs of our clients, including evaluation of country-specific factors that shape commercial and financial arrangements for each project.

Telecommunications and Media

We have been involved in many of the largest transactions in the Romanian telecommunications field, including privatizations, share sales, financings and dispute resolutions. We advise clients on system procurement issues, placement on the domestic market of new equipments and technology, licensing and intellectual property registration.

Pharmaceuticals and Health Care

Our firm has many years of experience advising pharmaceutical and medical devices manufacturers and distributors, as well as health care service providers. Our advice has included matters relating to regulatory approvals, importation, packaging and labeling, marketing authorization approval, as well as competition and corporate and operational structure.

Consumer Products

Our clients include many large manufacturers, distributors and retailers. We regularly advise businesses in the consumer products field in connection with a wide variety of matters, including advertising and promotion, product labeling and marking, packaging, importation, distribution, franchising, licensing, as well as trademark and copyright protection.

Insurance

Our firm advises insurers regarding the legal aspects of their insurance programs and products, corporate structure and regulatory matters. Our lawyers have experience with issues that arise under a range of insurance products, including standard liability and first-party property policies, as well as matters relating to coverage disputes and claims.

Pachiu & Associates

Attorneys at Law

Strada Munții Tatra Nr. 4-10, Etaj 5
011022, Sector 1, București

office@lp-legal.com

www.lp-legal.com

Pachiu & Associates was founded in 2002. The firm has rapidly evolved to become one of the top Romanian law firms for one main reason: its proven proficiency in enhancing the international outlook of its clients while observing the local legal requirements.

Pachiu & Associates counts on a solid team of experienced and motivated lawyers, graduates of leading universities in Romania or abroad and are all members of the Bucharest Bar Association and the National Union of Lawyers. The majority of its lawyers are senior members of the Bucharest Bar Association. All lawyers are fluent in Romanian and English. Some lawyers are fluent in German, French and Spanish. Pachiu & Associates lawyers are proud to have provided, throughout their career, legal assistance and opinions on transactions having an aggregate value in excess of USD 1 billion. Teamwork is one of the core values of the firm.

Currently, Pachiu & Associates counts for a staff of 25 people, comprising attorneys, authorized translators and supportive staff.

The firm provides for a full range of commercial and corporate legal advice.

The clients of the firm are mainly international corporate clients who are active in fields like the media, advertising, construction and construction materials industry, energy sector, infrastructure, IT and telecom, military and defense, hotel management, heavy machine industry, real estate project development, tobacco industry, television and cinema, white goods, medical and pharmaceutical industry, supermarket chains, shopping malls, beverage industry and others. Clients are mainly from Germany, Austria, the U.S., U.K., Switzerland and Israel.

The firm's vision is to maintain itself at the cutting edge of the legal profession, taking up the most challenging matters. Its approach is viewing issues from a business and a legal perspective, focusing not just on problem solving, but on problem avoidance as well. The result is its ability to add value to our partners' business, therefore enhancing its own.

The firm cares very much on the **confidentiality** of its clients' transactions, even if such have been consummated.

Our Managing Partner:

Laurentiu V. Pachiu, is a graduate of the University of Bucharest Law School (Dr. Jur., 1993), of the Deutsche Genossenschafts Bank Training Course, Banking and Market Economy (1992), and of the Diplomatic Academy of the German Federal Ministry of Foreign Affairs (1995). Laurentiu was a Lecturer with the University of Bucharest, on Tax and Banking Law. He is fluent in German, English, and Romanian. Laurentiu has extensive expertise in Mergers and Acquisitions, Corporate, Commercial, Project Finance, Banking, Privatization, Capital Markets. Laurentiu was counsel to clients such as ING Bank, Citibank, Volksbank, Deutsche Bank, the International Finance Corporation, the World Bank, Smithfield Foods, Holcim, Microsoft, Gruhner&Jahr, Emerson Electric, Harris Corporation, Raytheon, RWE AG, E.ON Group, New Century Holdings Inv. Funds, ITOCHU Corp, Romtehnica, Egger Konzern, Continental AG, and Moeller Group.

GLOBAL VISION, LOCAL EXPERTISE

The firm's business philosophy is based on three main pillars:

Integrated services, provided, first of all, by its attorneys in strong relationship with various top professionals: public notaries, authorized translators, recruitment firms, real estate brokers, stock brokers, certified public accountants and other professionals;

Cost effective services, supported by state-of-the-art computer technology, which enables the firm to monitor and to report to the client the time and costs associated with each particular matter. The firm strives to avoid any hidden cost, by way of ensuring top transparency in client file management;

Quality services, provided by carefully selected attorneys. While the firm has enjoyed a constant and healthy growth in size since its formation, it concentrates on high-quality services rendered by experienced lawyers rather than promoting a significant increase in its staffing levels. Focus is set on clients' needs and provision of prompt services. Effective cost management and careful selection of attorneys and auxiliary staff is the foundation of the firm's policy in the fields of client management and recruitment.

The firm maintains a close **relationship with some leading multinational law firms** and other small and medium sized law firms from abroad. In this way, we are always updated on current developments in the market of legal services at the international level, and we may provide support to our clients also in other jurisdictions, at the highest professional standards. Such relationship is founded on the same commitment to the high quality of legal services provided to the client.

In Eastern Europe, we benefit of friendly relationships with reputable law firms and business consultants in Poland, Hungary, Russia, Serbia, Bulgaria, Croatia, Slovenia, Slovakia and the Czech Republic.

We are contributors to some reputable legal and business reviews (including the bi-annual Romanian Business Digest). The firm is listed with prestigious International and European Legal reviews.

The Firm benefits of malpractice insurance with Allianz.

THE FIRM

Among the first international law firms to open their doors in Romania in 1997, Salans is recognized for its depth of understanding of the legal and business issues that affect clients operating in Romania. We have one of the leading M&A, competition and antitrust, banking & finance, tax and real estate practices in Romania, and offer clients comprehensive legal advisory services for all commercial and civil law matters in Romania and in the region.

Our office has been involved in sophisticated cross-border transactions and has gained extensive experience in EU compliance, financing, privatizations, competition, securities, private equity, technology, media and telecoms, litigation and dispute resolution, intellectual property, insurance, taxation, employment and pensions.

We regularly advise a wide range of companies, from emerging to mid-size to multinational. Our clients include manufacturing, service, distribution, retail, real estate development and insurance companies, as well as banks, private equity funds, hotels, securities firms and other financial institutions. Our attorneys have also represented insurance, construction and telecommunications clients in groundbreaking transactions in Albania, Bulgaria, Kosovo, Macedonia, Moldova and Serbia.

OUR ATTORNEYS

Salans Bucharest office follows a unique approach that has proven successful over time: we take top local professionals with a firm grasp of local customs as the core resource and partner them with western lawyers who have extensive experience in transactional matters. We believe that the resulting combination of local and western expertise and the special attention we provide our clients set us apart from other firms in the country.

Executives:
General Manager: VIRGIL IVAN
Financial Manager: ELENA HEGHEȘ
Marketing Manager: MIHAELA BARBU

Annual turnover: 9,138,262 EUR (2006)

Short profile:
Synevo - medical laboratory division of Medcover Group is the most important provider of laboratory test in Romania (3,6 million tests in 2006). At the moment, Synevo operates 10 laboratories in Bucharest, Cluj, Constanta, Iasi, Satu Mare, Suceava and Timisoara and employs 285 people. Confident in its ability to extend and diversify the line and variety of lab investigations - including esoteric tests, Synevo considers the physician to be the most important partner. Together we improve the quality of medical act and the patient's health.

Company Presentation

Sanador Medical Center is a renowned company in its field, with a continuous development since 2001, the date of its establishment. Now Sanador has 2 clinics, a laboratory and 11 private medical reserves in Floreasca Emergency Hospital.

In 2006, Sanador opened a new clinic, the only one in Bucharest that can assure the whole range of medical services, whose investment runs into 6 mil. EURO. This clinic provides: consultations in more than 40 specialties, laboratory tests (hematology, biochemistry, electrophoresis, immunology and immunodosages - tumoural, infectious and endocrine markers, microbiology), Radiology Imagistics services (ultrasound 3D/4D General Electric Voluson 730 Expert and Philips 3500 HDI, Radiology Philips-Bucky Diagnost, osteodensitometry DXA General Electric Prodigy, Mammography Philips MammoDiagnost

Multicare, Computer Tomography Philips CT Brilliance multislice, Magnetic Resonance Philips Intera Enterprise - 1.5 Tesla), functional investigations (Effort electrocardiogram, simple electrocardiogram, Holter blood pressure, holter ECG, Audiometry with isolated phonic cabin, Spirometry, Visual field determination), stomatology and dental radiology, panoramic and standard, emergency medical assistance 24 hours/day through its own ambulances, including type C ambulances, Occupational Medicine, medical subscriptions. Consultations are assured by a number of 200 high-specialized doctors in the following specialties: Allergology and Clinical Immunology, Nutrition and Metabolism Diseases, Cardiology (including stress test with ruller carpet and holter examinations), Surgery, Dermatology, Endocrinology, Epidemiology, Obstetrics-Gynaecology (and video-colposcopies), Gastroenterology (and endoscopies), Infectious Diseases, Hepatology, Internal Medicine, General Medicine, Occupational Medicine, Emergency Medicine, Family Medicine, Nefrology, Neurology, Neurosurgery, Ophthalmology, Oncology, Orthopaedy, Otorinolaryngology, Psychiatry, Psychology, Paediatrics, Rheumatology, Recovery-Balneofizioterapy, Urology, Dentistry. Sanador is also authorised to function as an International Vaccination Center, so that our doctors can issue international vaccination certificates. Individual persons, their families and the employees of the companies may benefit of our services as subscribers.

The medical record of every patient is visualised on line in each Sanador clinic and the results of the laboratory tests or paraclinical investigations can be transmitted by e-mail at the client's demand.

In order to complete its services, in 2008 the company will open a hospital with 100 beds, whose investment is estimated to 10 mil. EURO.

As a strategy, Sanador wants to become the first choice for medical services, by accomplishing the following performance objectives: quality, promptitude, confidence, flexibility, the best price for the best services.

Sanador address to a large category of people: patients coming for certain medical services and pays them at the reception (fee for service), patients whose laboratory tests or Radiology Imagistics services are reimbursed by the National Insurance Houses and subscribers, individual or corporate.

GENERAL PRESENTATION OF THE COMPANY

EUROGAMA INVEST Company was founded in 1994.

The unique associate of the Company is Gabriel Niculescu, the equity capital is of 200.000 RON.

In 1994 the company started with a equity capital of 100.000 ROL and a single employee, the unique associate.

A certification made by TUV, on **Quality Management** according to **EN ISO 9001:2000** was acquired in august 2002, as a proof of the continuous attention we give to the quality of our products.

The evolution of the turnover was the following:

1994	5.580.000 ROL	3.371 USD
1995	325.000.000 ROL	159.840 USD
1996	919.000.000 ROL	298.125 USD
1997	3.389.919.000 ROL	472.928 USD
1998	8.329.971.000 ROL	938.530 USD
1999	23.707.685.000 ROL	1.546.194 USD
2000	43.072.518.000 ROL	1.985.573 USD
2001	72.689.877.000 ROL	2.607.147 EUR
2002	131.950.791.756 ROL	3.778.767 EUR
2003	240.000.000.000 ROL	5.837.002 EUR
2004	280.543.000.000 ROL	8.595.971 EUR

Fields and locations of activity

1. Bucharest is the main production activity with over 500 people:

- Printing
- Plastic materials processing
- Cardboard packaging
- Corrugated cardboard
- Advertising Agency (IGNIS)

2. Timisoara branch - (Romania) over 250 people

- Production

3. Belgrad branch with over 50 people

- Typography

4. Sophia (Bulgaria) - representative office with 5 people,

- Office

Logistic system

1. An area of over 17000 sq.m. built on 3 levels includes all the necessary facilities able to serve the technological flows specific to the typographic production.

2. An well set-up supply-delivery system, based on the good relationship established in time, both with the suppliers and the clients is available. This leads both to a great rapidity in the acquiring of the supplied materials orders, the and to the operative transmission and in full security of the finished products to the clients, with the own transport means of SC EUROGAMA INVEST SRL. The auto park of the company is composed by 34 transport means served by around 50 young, professional drivers, available not only in the rated program hours, but also, following the case, in extra time program.

3. A maintenance system of the technological equipment, based on programming and diagnostic, on a prompt informational connection between the production sector and the department of mechanic and electric power maintenance.

4. An IT system adapted to the expectations of a modern company with typographic profile supports very well the efforts of product's creation and continuous improvement, according to the clients requirements and field news. Eurogama Invest benefits of a permanent connection to Internet and administrates its own mail servers, ftp (files transfer), and http (www). These ones, together, allow to communicate quasi-instantaneous with the clients and suppliers. Thus, there are possible the electronic messages change, including graphic files and data, in real time, the feedback speed to the clients being limited only by the Internet speed.

Activity development

Since last year, EUROGAMA INVEST group of companies includes Ignis advertising agency.

Ignis Advertising combines promotional classic methods (ATL) and the unconventional ones (BTL). The agency offers a wide range of advertising, media and PR services and alternates both creative and marketing principles.

Ignis Advertising consists of several Departments: Client Service, Creative, DTP, PR and Strategic Planning, where the professional team ensures the high quality of all the offered services. The Agency's missions are: to shape the image of products, companies, services and people, to help them grow into brands and to be most value by those who most value brands.

Ignis advertising services:

- Advertising consulting
- Creative services
- Market research
- Organizing events
- Planning and implementing promotional activities
- Trade and consumer promotions
- Direct Marketing
- Creative services for packaging, promotional materials, promotion supports

Ignis media services:

- Strategic media planning
- Tactical media planning
- Media Negotiation
- Media Buying
- Execution
- Coordination

- Media research
- Sponsorship opportunities as barter and products placement
- Special projects
- Post evaluation

Ignis PR services:

- Media monitoring
- Image strategy and analyses
- Media relations
- Public events development and organization

Eurogama Invest also includes a new department of creating and developing instructive games and toys.

Development of export department.

Suppliers

Paper and typographical materials

- good financial relationships with important suppliers
- increasing the number of important suppliers
- obtaining, at least from the important suppliers, the 90 days deadline payments
- beginning the collaboration with external manufacturers of paper and obtaining long deadline payments and less prices than for their internal distributors

Plastics

- beginning the collaboration with external important suppliers
- obtaining appropriate deadline payments from basics and materials suppliers
- supplementing the range of services by developing the collaboration with big enterprises.

Brands: InterContinental, Corso Brasserie, Madrigal Steak House, Intermezzo Bar

atmosphere, Novotel Bucarest City Centre opened its gates in September 2006. 'Novotel, designed for natural living' is a concept which attempts to set a standard in hotel innovation. This concept opens the doors onto a world of well being and relaxation. It is an invitation to travel representing a complete break with the business traveller's airport/hotel/conference routine. Right in the business district and a few minutes walk from the historical centre, Novotel really offers an exceptional situation in the Romanian capital which is a business city with a cultural inheritance to discover.

LEISURE • RELAXARE

Pleasant moments can be spent by visiting the permanent art exhibitions hosted at Golden Tulip Sky Gate or by exercising in the mini-gym. The hotel team will be glad to assist you in finding the best opportunities to enjoy the natural neighbourhoods, such as Snagov lake and many more, or some nice Bucharest city breaks.

Momente placute pot fi savurate vizionand expozitiile de arta permanent gazduite de Golden Tulip Sky Gate sau exercinand in sala mini gym. Echipa hotelului va fi bucuroasa sa va asiste cu solutii optime de relaxare in imprejurimile naturale, cum sunt Lacul Snagov si multe altele, sau in tururi de oras atractive in Bucuresti.

ACCESSIBILITY • ACCESIBILITATE

By car: Golden Tulip Sky Gate is a 3-minute drive from H. Coanda Airport, a 15-minute drive to Bucharest downtown.

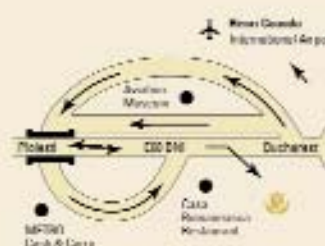

By public transportation: Buses available from airport to downtown; one-minute walk to the bus station. Taxis on request.

Parking facilities: Over 60 parking lots, free of charge for hotel guests.

Cu masina: Golden Tulip Sky Gate este la 3 minute de Aeroportul H. Coanda si la 15 minute de centrul Bucurestiului.

Transport public: Autobuzele de pe ruta aeroport - centrul Capitalei au statia la 1 minut distanta de hotel. Taxi la comanda.

Parcare: Peste 60 de locuri de parcare, gratuit pentru oaspetii hotelului.

Dior GUERLAIN *Cartier* LOEWE *Chopard* PAL ZILERI Kaloo NIKOS

Prestige Parfum started, since its very beginning, in June 2001, as an important player on the Romanian market, having an important share of the import and distribution of selective perfumery and cosmetics goods national business. The company structure is not affiliated to any international chain of selective distributors and has kept its local independence since its beginning. This sustained the continuous growth of the existing portfolio of distributed brands, Prestige Parfum becoming a strong and reliable partner for international brands willing to enter the Romanian market.

Company portfolio:

Prestige Parfum gained its reputation in a short time thanks to its (increasing) portfolio:

Dior, Guerlain, Cartier, Loewe, Chopard, Nikos, Pal Zileri and Kaloo

Since the beginning of 2006, the company has a new General Manager, Mr. Karim Nasrallah, who has an experience of more than 20 years in the luxury industry, achieved in many European and far-Eastern countries.

Staff

Prestige Parfum has issued and started implementing, since the second semester of 2006, a new and strong commitment to all of its clients and, more important, suppliers, starting from a new and improved company policy towards all of its clients, a new company logo, a new and improved hologram model, and specialized subsidiary staff for each brand in its current portfolio:

Mr. Karim Nasrallah, Administration Manager

Mrs. Silvia Gurlea, Brand Manager for Dior

Ms. Mirela Buturuga, Brand Manager for Guerlain and Cartier

Ms. Anamaria Isip, Brand Manager for Loewe, Chopard, Nikos, Pal Zileri and Kaloo.

Partners

Prestige Parfum is the distributor for many points of sale belonging to its very important partners, such as: Beauty Shop Sephora, B&B Collection, Ina International, Go West and also independent retailers throughout the country. Overall, there are more than 60 points of sale onto the national retail market, where the final customers can find the products in the company's portfolio. Their presence on the market is very important to the company and it has very encouraging increases, reflected in turnovers each season.

Acknowledgments

The company organizes training and sales techniques sessions for all dedicated beauty consultants, where they have the chance to learn, at an extremely competitive international level, about brands' universes, history and particular features for each product sold through the retailers. Clients are very important, so each one who buys one of the products in the company portfolio and agrees to it, has a personalized client sheet, where the beauty consultants can learn about their preferences and can offer qualified advice about completing to their needs and palette of best offer.

Prestige Parfum is the sole selective perfumery and cosmetics distributor who is constantly fighting against the parallel market (a very spread phenomenon in Romania), in order to protect against fakes and grey market. Each product sold through a preferential segment of retailers carries on it the new Prestige Parfum hologram, which is impossible to counterfeit, duplicate or remove.

As importer and distributor, Prestige Parfum covers 20% of this part of the luxury segment, being the sole representative of brands, such as: Dior, Guerlain, Cartier, Loewe, Chopard, Nikos, Pal Zileri, Kaloo and many others to come during this very year.

Through the presence of international suppliers, personalized shopping and marketing materials, constantly offering proof of originality, quality and trademark concerning the distributed products, all these particularities allowed Prestige Parfum to grow the best image and preferential status in the eyes of the final clients. This image was consolidated by strictly respecting the international new product launches dates and details related to concept, trademark and image.

Having proved to be, for more than 6 years, the preferred partner for both suppliers and local retailers, Prestige Parfum re-commits its just claims for increasing its existing portfolio with strong new names operating in the international luxury industry. Once you will step into any selective perfumery, you will meet professionalism, excellence and guaranteed quality, starting with irreproachable presentation of products and ending with the magical journeys through the world of never-ending wonders that come with this incredible luxury fragrance universe.

CHRONO TIME

Chronotime International was born from the desire to offer prestigious Swiss watch brands to the Romanian market. A Swiss - Romanian new company, with a strong know-how background, a company that wants to bring a new breeze to this market area and the possibility for the Romanian customer to have access to brands that he could not find in the country.

Our brand portfolio satisfies even the most demanding requests and have been chosen in the spirit of excellence , each of our brands impresses with its history, innovations, design or modernity. The brands we distribute share all the same core values and vision, as they are leaders in their category.

Chronotime International is importer and distributor for brand watches: **Breguet, Parmigiani, Blancpain, Jaquet Droz, Hublot, Omega, Breitling, Porsche Design, Rado, Longines, Gucci, Tissot, Victorinox Swiss Army, Calvin Klein, Swatch, Mango and Timberland**, and also for watches accessories like Buben & Zorweg and Underwood. Also, it is the major partner of Swatch Group in Romania.

Our flagship brands can be admired in CELLINI shop on Bd. Nicolae Bălcescu, no. 16, Bucharest.

Even though a newcomer on Romanian watch market, Chronotime International is one of the most important

importers and distributors due to the quality of its products and services. In a short time it has become a trend setter and wants to cultivate the Romanians' taste for watches and special mechanisms. The continual diversification of the portfolio is designed to pleasantly surprise the clients.

As an active member of our society, Chronotime International has shown its interest in sponsorship various sports or athletes. Camelia Potec, Olympic champion the ambassador of Omega in Romania, Tissot is the sponsor of Steaua Hockey team.

As an answer to our clients' wish, in November 2005, Chronotime International launched „Watch Aficionado Club” for those passionate about watches. This club offers to its members information about the latest models, mechanism and trends from this area.
